Re: Phase I Environmental Site Assessment
Gould House
90 Lake Street
Bristol, New Hampshire 03222
NHDES Site No. 202508068, Project No. 44085

Dear Mr. Trefethen:

Nobis Engineering, Inc. d/b/a Nobis Group® (Nobis) is pleased to present this Phase I Environmental Site Assessment (ESA) for the above-referenced property. This work was performed within the context of ASTM International (ASTM) E 1527-21, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process".

In the signing of this document, we declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 Code of Federal Regulations (CFR) 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. This report is subject to the limitations in Appendix A.

Thank you for the opportunity to be of service to you. Please do not hesitate to contact us if you have any questions.

Sincerely,
NOBIS GROUP®

Benjamin Lasky
Project Geologist

SUMMARY

Nobis Engineering, Inc. d/b/a Nobis Group® (Nobis) has completed a Phase I Environmental Site Assessment (ESA) of the property located at 90 Lake Street in Bristol, Grafton County, Bristol, New Hampshire (subject property). The parcel comprising the subject property is identified by the Town of Bristol Assessor's office as Parcel 000113-000041-000000.

The subject property encompasses an area of 1.32 acres, including a two-story building which was constructed in 1980. The Subject property is known as the Gould House, an historic landmark of Bristol. The original brick structure that was constructed on the property was finished in 1850 as a residence. The property was converted for use as light commercial retail space used for lumber and hardware stores, and an Irish pub/restaurant. The property has been owned by Parkhurst Revocable Living Trust since 1990.

Kelley Park is located to the east of the subject property. Commercial and residential properties are located north, south and west of the subject property along Lake Steet, Pleasant Street, and North Main Street. According to the Town of Bristol Zoning Map, the subject property and surrounding area are zoned as village commercial and village residential. Overhead power lines serve the subject property and other commercial and residential properties in the immediate area.

Nobis conducted a site reconnaissance on June 18, 2025. Observations of the property included the original brick house that had recently served as a restaurant and had been expanded into an additional event space that housed live music and a bar extension. The rest of the building was utilized as a hardware/ general store and storage space. The subject property was surrounded by Lake Street to the southeast which leads into the main parking area at the front of the property and connects to a gravel path that encircles the building before reaching Lake Street on the opposite side of the restaurant. There were several stockpiles of furniture and restaurant equipment stacked on the exterior and to the rear of the structure. There were also stockpiles of wooden beams, concrete blocks, steel I-beams, and propane tanks lining the property boundary and covered in vegetation. In addition to this, there was a parked van and boat along the gravel path to the former hardware store's rear, a parked car adjacent to Lake Street at the northwest corner of the subject property, an empty shed, an unmarked 55-gallon closed top plastic drum, an underground propane tank, a dumpster, a used grease receptacle, and several additional stockpiles of wood, tires, and construction materials directly behind the former hardware store.

The interior of the restaurant and event space still contained substantial amounts of glassware, plates, silverware, decorations, furniture and other materials associated with the operations of the former restaurant. The hardware store contained a large quantity of what appeared to be its former products, which included paints, fuel containers, tools, hardware, wood chips, and

powered equipment. There was a section on the first floor used for shared storage between the restaurant and hardware store where many of the same products that were found in the hardware store were located. The attic was also used as a storage space and was lined with old furniture, decorations, and possibly products that were once for sale at the restaurant. The northwest corner of the attic held a living space/ apartment annex with a full bedroom, living room, and bathroom.

Historical data including topographic maps, aerial photographs, Sanborn maps, and municipal records suggest that the subject property was first developed as residence in 1850. The property served as a residence with attached stables prior to receiving an addition which allowed the onsite structures to be converted into a restaurant and retail space for hardware.

The EDR report indicated that the subject property was identified within the record listings for FINDS, ECHO, RCRA NonGen/NLR and RI Manifest databases. These records indicate historical generation of combustible waste at the subject property.

The EDR report also identified adjoining properties listed in the database records. Review indicated that they were not expected to adversely impact the subject property based on closed regulatory status and/or location relative to the subject property.

Nobis has completed a Phase I ESA of the property at 90 Lake Street, Bristol, New Hampshire. This work was performed in accordance with ASTM E 1527-21, “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process”. Any exceptions to, or deviations from, this practice are described in Sections 1.4 and 10.0.

This assessment has revealed no Recognizable Environmental Conditions (RECs), Historical RECs (HRECs), Controlled RECs (CRECs) or significant data gaps in connection with the subject property. Vapor Encroachment Conditions (VECs) and *de minimis* conditions were also not identified during this assessment.

1.0 INTRODUCTION

Nobis Engineering, Inc. d/b/a Nobis Group® (Nobis) has completed a Phase I Environmental Site Assessment (ESA) for the property identified by the Town of Bristol Assessor's office as Parcel 000113-000041-000000 located at 90 Lake Street in Bristol, Grafton County, New Hampshire (subject property). This work was performed in accordance with American Society for Testing and Materials (ASTM) E 1527-21, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process". This Phase I ESA was completed as part of due diligence requirements in connection with potential purchase and sale of the subject property. ASTM E 1527-21 was approved by the Environmental Protection Agency (EPA) on February 13, 2023.

1.1 Purpose

The objective of this Phase I ESA was to assess environmental conditions at the subject property and vicinity for Recognized Environmental Conditions (RECs), historical RECs (HRECs), Controlled RECs (CRECS) and de minimis conditions associated with the presence of *petroleum products* or *hazardous substances* in conformance with ASTM E 1527-21, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The ASTM Standard Practice E 1527-21 defines these terms as follows:

RECs are the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) The presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

HRECs are a past release of any hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority, without subjecting the subject property to any required controls.

CRECs are a recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

De minimis conditions (DMCs) are conditions related to a release that do not present a threat to human health or the environment and that generally would not be subject to enforcement action if brought to the attention of appropriate government agencies.

In addition, a Tier I vapor encroachment screening (VES) was completed as part of this assessment. This screening is conducted in general accordance with ASTM E2600-15, *Standard Guide for Vapor Encroachment Screening on property Involved in Real Estate Transactions* dated October 2015.

1.2 Detailed Scope-of-Services

To meet the objectives of the Phase I ESA, Nobis performed the following tasks:

- Reviewed New Hampshire Department of Environmental Services (NHDES) and EPA regulatory database listings concerning environmental conditions at, and in the vicinity of the subject property, as provided by Environmental Data Resources, Inc. (EDR).
- Contacted officials of the Town of Bristol, New Hampshire to obtain information pertaining to present and historical environmental conditions at the subject property and adjacent environs.
- Reviewed available history of ownership and land usage records and interviewed persons with knowledge of the subject property to obtain past usage information.
- Reviewed available aerial photographs and/or topographic maps to aid in assessing local geology and in assessing past and present land use at the subject property and vicinity.
- Conducted a reconnaissance of the subject property on June 18, 2025, to assess surficial and general environmental conditions at the subject property and adjacent environs for evidence of RECs associated with past or present *petroleum product* or *hazardous substance* handling or storage activities.
- Prepared this report summarizing the results of the assessment.

No ASTM non-scope items are included as part of this Phase I ESA.

1.3 Significant Assumptions

It is assumed that federal, state, and local records are generally complete and current. The preparer assumes that all individuals contacted and/or interviewed during the preparation of this

Phase I ESA have responded in good faith. Nobis is entitled to rely on all information gathered during this scope of work.

1.4 Limitations and Exceptions

This Phase I ESA is intended to assess the subject property for significant environmental issues. It is not intended as a guidance document for potential future remedial action. In addition, this ESA is subject to the limitations included in Appendix A.

1.5 Special Terms and Conditions

No special terms or conditions apply to this project.

1.6 User Reliance

This Phase I ESA has been prepared exclusively for the use of Nobis' Client. With the exception of release to any third party by Nobis or the Client, reliance on this report is for informational purposes only. Nobis makes no warranties to person(s) or entity(ies) other than the Client to rely on the information provided in this report. Any person(s) or entity(ies) wishing to use this information shall do so with the written permission of Nobis and the contract for which it is intended. Prior approval from Nobis is required for disclosure of information obtained in this report.

Continued viability of this report is subject to ASTM E 1527-21 Sections 4.6 and 4.8. If this ESA will be used by a different user(s) (third party) than the user(s) for whom the ESA was originally prepared, the third party must also satisfy the user(s) responsibilities in Section 6 of ASTM E 1527-21.

1.7 User Obligations

As defined in ASTM E 1527-21, the user responsibilities are as follows:

- Check title records for environmental liens and activity and use restrictions.
- Disclose specialized knowledge and experience.
- Explain why the purchase price is below market value, if it is discounted.
- Answer interview questions in good faith.
- Provide information as outlined in Section 6 of ASTM E 1527-21 including completing the User Questionnaire attached in Appendix B.

For the purpose of this ESA, the *user* is defined as Tapley-Thompson Community Center and the Lakes Region Planning Commission. A representative of the *user* provided the information required under Section 3.0, as well as responses to the User Questionnaire.

1.8 Data Gaps

Efforts were made by Nobis to obtain *user* provided information and review all reasonably ascertainable resources to determine historical uses of the subject property and surrounding properties to identify the possibility of RECs in connection with the subject property. Objectives are completed within the framework of research outlined above; however, data failure may be encountered. As defined by ASTM, data failure or data gaps occur when historical research is reasonably ascertained and reviewed, but the intended objectives have not been met. This ESA was limited by the following:

- The past owners of the subject property and adjoining property owners were not interviewed regarding the past usage of the subject property. Mr. Parkhurst, the current property owner, was present during the site visit on June 18, 2025, and was familiar with past uses of the subject property and adjoining properties.

It is the opinion of the Environmental Professionals writing this report that the data gap noted above has not significantly impacted the ability to identify RECs in association with the subject property.

2.0 SUBJECT PROPERTY DESCRIPTION

2.1 Location and Legal Description

The subject property is located at 90 Lake Street in Bristol, Grafton County, New Hampshire, and is identified on Town of Bristol Tax Map 113 as Lot 41. According to the Town of Bristol Assessor's records, the parcel comprises an area of approximately 1.99 acres and is currently owned by Parkhurst Revocable Living Trust. Ownership of the subject property and a legal description are contained in a 1990 Deed recorded in Book 1891 Page 0422 at the Grafton County Registry of Deeds. A Locus Plan is provided as Figure 1 and a Site Plan is provided as Figure 2. Photographs taken during the property reconnaissance on June 18, 2025, are provided on Figure 3.

2.2 Previous Environmental Investigations

There were no previous environmental investigations conducted at this site.

2.3 Site and Vicinity General Characteristics

The subject property currently consists of a two-story building formerly used for light commercial purposes, including retail space for lumber and hardware stores and an Irish pub/restaurant. The subject property is generally flat and level. The surrounding topography slopes at a moderate gradient to the south/ southwest toward the Newfound River. The subject property has an approximate elevation of ±466 feet above mean sea level.

According to the Town of Bristol Zoning Map, the subject property and surrounding area are zoned as village commercial and village residential. Overhead power lines serve the subject property and other commercial and residential properties in the area.

2.4 Current Use of the Site

The Subject property housed an Irish pub (Kathleen's Irish Pub) as recently as 2024. The pub is now permanently closed, and the building is currently vacant. An attached two-story space was used as a hardware and general store in addition to storage for both the retail and restaurant operations. This portion of the building is also currently vacant.

2.5 Descriptions of Structures, Roads, Other Improvements on Site

The Gould House is located on Lake Street and flanked by Lake Street to the west and Central Square Historic District and Kelley Park to the east. A two-story building was constructed in 1980 and was converted for use as light commercial retail space used for lumber and hardware stores, and an Irish pub/restaurant. The commercial structure uses public water and sewer utilities. Overhead power lines and a transformer are located on the southeast corner of the subject property. A gravel path/road encircles the Gould House and two-story building, connecting the front parking lot to Lake Street on the north/ northwest side of the Gould House.

2.6 Current Use of Adjoining Properties

The Newfound Memorial Middle School is north/northwest of the subject property at 155 North Main Street. Kelley Park and Central Square Historic District lie directly to the east of the subject property. An auto parts store at 64 Lake Street adjoins the property to the south. To the west, across Lake Street is a convenience store with a retail gas station at 101 Lake Street and an automobile importer and customization business at 85 Lake Street.

2.7 Subject Property Physical Setting

The subject property is depicted on the U.S. Geological Survey (USGS), Bristol, NH – 2021 7.5-minute topographic quadrangle at an elevation of approximately ± 466 feet referenced to the North American Vertical Datum of 1988.

Bedrock beneath the subject property is composed of feldic-graphitic schist and pyrrhotitic calc-silicate granofels rocks associated with the Smalls Falls Formation (J.B. Lyons, W.A. Bothner, R.H. Moench, and J.B. Thompson, Jr., 1997, Bedrock Geologic Map of New Hampshire: USGS, scale 1:250,000). The depth to bedrock is unknown.

According to the United States Department of Agriculture's Natural Resource Conservation Service (NRCS) Web Soil Survey (<http://websoilsurvey.sc.egov.usda.gov/App/WebSoilSurvey.aspx>), soil beneath the subject property consists of Adams loamy sand, 0 to 3 percent slopes. Soil type at the subject property is depicted in the NRCS Soil Map included in Appendix C.

The subject property is located on the National Flood Insurance Program Flood Insurance Rate Map (FIRM) for the Town of Bristol, Grafton County, New Hampshire – Map Number 33009C1176F, effective February 8, 2024. The FIRM image was available in the Federal Emergency Management Agency (FEMA) online database and was reviewed as part of this assessment and is included in Appendix C. The map depicts the subject property in Zone X, an area of minimal flood hazard.

3.0 USER PROVIDED INFORMATION

Ms. Leslie Dion, a representative of the Tapley-Thompson Community Center, responded to a User Questionnaire. The completed questionnaire is attached in Appendix B.

3.1 Environmental Liens

The *user* is not aware of any environmental liens for the subject property.

3.2 Activity and Use Restrictions

The *user* is not aware of activity and use limitations for the subject property.

3.3 Specialized Knowledge

The *user* does not possess any specialized knowledge of the subject property.

3.4 Valuation Reduction for Environmental Issues

The *user* indicated that the purchase price reflects fair market value of the subject property.

3.5 Commonly Known or Reasonably Ascertainable Information

The *user* indicated that they know past uses of the property but do not know of any specific chemicals present or once present or any environmental cleanups that have taken place on the subject property.

3.6 Obviousness of Presence of Contamination

The *user* indicated that they are not aware of any obvious indicators that point to the presence or likely presence of contamination on the subject property.

3.7 Reason for Performing Phase I

The *user* stated that funding for a potential sale is the reason for performing the Phase I ESA.

4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources

As part of this Phase I ESA, state and federal environmental records were reviewed in the form of an environmental database report provided by EDR. A copy of the database report is included as Appendix D. Information was also obtained from other local municipal and state records. The following is a summary of significant findings from this review:

Federal and State Regulatory Agencies

EPA National Priority List (NPL)

The EPA's NPL is a list of confirmed or proposed Superfund facilities. The subject property was not identified as an NPL facility. No NPL facilities were identified within a ± 1.0 -mile radius of the subject property.

Delisted NPL

The Delisted NPL is a list of sites removed from the NPL when no further response is appropriate. The subject property was not identified as a delisted NPL facility. No delisted NPL facilities were identified within a ± 1.0 -mile radius of the subject property.

Superfund Enterprise Management System (SEMS), including Federal Facility Sites

SEMS (formerly CERCLIS) tracks sites and remedial activities in support of the EPA Superfund Program. This database contains data on potentially hazardous waste sites reported to EPA by states, municipalities, private companies, and private persons; site proposed for inclusion on the NPL, and sites being assessed for possible inclusion on the NPL. The subject property was not identified as a SEMS facility. No SEMS facilities were identified within a ± 0.5 -mile radius of the subject property.

Superfund Enterprise Management System Archive (SEMS-ARCHIVE)

The SEMS-ARCHIVE (formerly CERCLIS-NFRAP) database is a database of archived SEMS facilities at which, to the best of the EPA's knowledge, assessment has been completed and the EPA has determined that no further steps will be taken to list this site on the NPL. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site. The

subject property was not identified in the SEMS-ARCHIVE database. No SEMS-ARCHIVE facilities were identified within a ± 0.5 -mile radius of the subject property.

Emergency Response Notification System (ERNS) Releases

The ERNS database is the EPA's database of emergency response actions. The subject property was not identified as an ERNS site.

Federal Resource Conservation and Recovery Act (RCRA) Handlers

The RCRA database is the EPA's database of registered hazardous waste generators and Treatment, Storage or Disposal Facilities (TSDF). The subject property was not identified as a TSDF, corrective action (CORRACTS) facility, RCRA Large Quantity Generator (RCRA-LQG), RCRA Small Quantity Generator (RCRA-SQG), or RCRA Very Small Quantity Generator (RCRA-VSQG).

One (1) corrective action (CORRACTS) facility was identified within a ± 1 -mile radius of the subject property. This facility, Freudenberg-Nok Sealing Technologies, is located 0.624 miles southwest of the subject property at 450 Pleasant Street. Freudenberg-Nok Sealing Technologies is located downgradient of the subject property. Based on its location, the site is not expected to adversely impact the subject property.

Three (3) RCRA VSQG sites were identified within a ± 0.25 radius of the subject property. Dollar General and TNT Autobody, both located at 215 Lake Street, are situated 0.212 miles northwest of the subject property. Oreilly Auto Enterprises is the adjoining property to the southeast of the subject property at 64 Lake Street. All three sites have no listed violations and are not expected to adversely impact the subject property.

Records are associated with the subject property as a historical generator of combustible waste. No violations were reported.

Federal Institutional Control / Engineering Control Sites

The Federal Institutional Control / Engineering Control (IC / EC) registry is the EPA's database of Superfund or RCRA sites that have either institutional or engineering controls in place as part of the remedial action to achieve or maintain protection of human health and the environment. The subject property was not identified as a Federal IC/EC. No Federal IC/EC sites were identified within a ± 0.5 -mile radius of the subject property.

State Institutional / Engineering Control Sites

The State IC/EC database consists of state-maintained databases which contain information on sites with Activity and Use Restrictions (AURs) where remedial action relies on the restriction of site activities and uses to achieve or maintain protection of human health and the environment. The subject property was not identified as a State IC/EC site. No State IC/EC sites were identified within a ±0.5-mile radius of the subject property.

State and Tribal Hazardous Waste Site Inventory (SHWS) Sites

The SHWS Sites database is a database of confirmed disposal sites, locations to be investigated, waived, deleted, and reserved sites. The subject property was not identified as a SHWS.

Two (2) NH SHWS sites were located within a ±1-mile radius of the subject property. Freudenberg Nok was also listed above as a corrective action (CORRACTS) facility. Based on its location, Freudenberg-Nok is not expected to adversely impact the subject property. MICA Factory is no longer in operation and was located at 5 Central Street, 0.241 miles to the southeast of the subject property. MICA Factory has a closed regulatory status and is not expected to adversely impact the subject property.

State and Tribal Spill Reports

The SPILLS database contains surface, groundwater, and hazardous materials spills as reported to NHDES. Additionally, SPILLS 90 records were obtained from FirstSearch, and includes spill and release records pertaining to chemical, oil and/or hazardous substances spills. The subject property was not identified as a SPILL site by the EDR report.

State and Tribal Landfill and/or Solid Waste Disposal Sites (SWF/LF)

State/Tribal SWF/LF type records contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet certain RCRA criteria for solid waste landfills or disposal sites. The subject property was not identified as a current or former SWF/LF. No SWF/LF sites were identified within a ±0.5-mile radius of the subject property.

State and Tribal Leaking Underground/Above-ground Storage Tank (LUST/LAST) List

The LUST/LAST list is a database of sites where leaking underground and above-ground storage tanks have been identified/reported and is maintained by the NHDES. The subject property was not identified as a LUST/LAST site.

Seven (7) NH LUST sites were identified within a ±0.5-mile radius of the subject property. Included in this list are:

- Bristol Citgo (94 Lake Street) - located 0.020 miles northwest of the subject property according to EDR, but based on information found on OneStop is actually more than 0.5 mile from the subject property. The site has closed regulatory status and is not expected to adversely impact the subject property;
- Park N Go Markets (101 Lake Street) - located 0.031 miles northwest. The site has regulatory closure and is not expected to adversely impact the subject property;
- Bristol Auto (50 Pleasant Street) - located 0.087 miles southeast. The site has regulatory closure and is not expected to adversely impact the subject property;
- Former Bristol Exxon (2 Lake Street) - located 0.090 miles to the southeast. Based on its location and closed regulatory status, the site is not expected to adversely impact the subject property;
- Former Bristol Citgo (Route 104) - located 0.128 miles south. The site is in a closed regulatory status and is not expected to adversely impact the subject property;
- Dead River Oil Company (30 Pleasant Street) - located 0.129 miles southeast. The site is located greater than 525 feet from the subject property, in a closed regulatory status and is not expected to adversely impact the subject property; and
- Cumberland Farms 2814 (25 Pleasant Street) - located 0.174 miles southeast of the subject property. The site is located greater than 525 feet from the subject property, inactive, in a closed regulatory status, and is not expected to adversely impact the subject property.

State and Tribal Underground Storage Tank (UST) and Aboveground Storage Tank (AST) List

The UST/AST list is a database of registered underground and aboveground storage tanks maintained by NHDES. The subject property was not identified as a UST/AST facility.

Twelve (12) NH UST sites were identified within a ± 0.25 -mile radius of the subject property. Further review indicated that two facilities adjoin the subject property:

- Newfound Memorial Middle School (155 North Main Street) adjoins the subject property to north. One 10,000-gallon No. 2 fuel oil tank is present, and records show that the tank is regularly inspected. However, records on OneStop indicate current compliance issues regarding registration, posting of operator response guidelines, and operator training;
- Park N Go Market (101 Lake Street) adjoins the subject property to the north/ northwest. There are two active tanks, a 14,000-gallon gasoline tank and a 5,000-gallon gasoline tank. The facility is currently in compliance.

Three (3) NH AST sites were identified within a ± 0.25 -mile radius of the subject property, but none were determined to be on the subject property or adjoining properties.

Federal Brownfields Sites

The Federal Brownfields Sites database assists EPA in collecting, tracking, and updating information, as well as reporting on the major activities and accomplishments of the various Brownfield Grant Programs. The subject property was not identified as a Federal Brownfields site.

Four (4) US Brownfields sites were identified within a ± 0.5 -mile radius of the subject property. Included in this list are:

- Minot-Sleeper Library (35 Pleasant Street) – located 0.113 miles southeast of the subject property. The site has closed regulatory status and is not expected to adversely impact the subject property;
- MICA Factory – (8 Central Street), 0.241 miles to the southeast of the subject property. Asbestos, lead, and polycyclic aromatic hydrocarbons were noted to be contaminants, and a soil remediation was performed. A No Further Action letter was issued December 4, 2012 and is not expected to adversely impact the subject property;
- Reynolds Property (16 Central Street) – located 0.24 miles to the southeast. The site is in a closed regulatory status and is not expected to adversely impact the subject property; and
- Adams Property (20 Central Street) – located 0.249 miles to the southeast of the subject property. The site is in a closed regulatory status and is not expected to adversely impact the subject property.

State and Tribal Brownfields Sites

The NHDES maintains a database of Brownfields sites that are registered with the agency. The database may not include the federal Brownfields sites. The subject property was not identified as a Brownfields site.

Four (4) NH Brownfields sites were identified within a ± 0.5 -mile radius of the subject property. Included in this list are:

- Bristol Citgo (Route 104) - located 0.128 miles south of the subject property, The site is inactive, in a closed regulatory status, and is not expected to adversely impact the subject property;
- MICA Factory – (8 Central Street), 0.241 miles to the southeast of the subject property. The site has a closed regulatory status and is not expected to adversely impact the subject property;

- Reynolds Property (16 Central Street) – located 0.24 miles to the southeast. The site is in a closed regulatory status and is not expected to adversely impact the subject property; and
- Adams Property (20 Central Street) – located 0.249 miles to the southeast of the subject property. The site is in a closed regulatory status and is not expected to adversely impact the subject property.

Orphan Summary Sites

According to EDR, unmapped facilities are those that do not contain sufficient address or location information to evaluate the facility listing locations relative to the subject property. The database report found two (2) orphan sites: David Maloof and Former Stolt Sea Ranch Site, both listed as SHWS sites. Further research indicated that these sites were greater than 0.5 mile northwest of the subject property and unlikely to adversely impact the subject property based on closed regulatory status.

4.2 Vapor Encroachment Screening

As specified in the ASTM E1527-21 standard, Nobis completed a VES for the subject property. The screening was prepared in general compliance with ASTM E2600-15, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*. The objective of the VES was to determine if a vapor encroachment condition (VEC) exists or does not exist relative to the subject property. A VEC is defined as:

“the presence or likely presence of chemical(s) of concern (COC) vapors in the vadose zone of the subject property caused by the release of vapors from contaminated soil and/or groundwater either on or near the subject property.”

A VEC is a potential exposure pathway, specifically to building occupants, whereby volatile organic contamination present in soil and groundwater may partition into the vapor phase and migrate into soil gas and indoor air of a building, if present.

On Site: No clear or obvious on-site sources of vapor encroachment (e.g., UST, contaminated soil, groundwater plume, etc.) were identified during this assessment. However, there was stockpiled mechanical and automotive equipment and materials observed on site. Additionally, historical documentation, including aerial imagery, demonstrated a pattern of previous long-term storage of mechanical and automotive equipment on site. The presence of this material precludes any confident assertion that a VEC due to an on-site source does not exist. Based on this information, further evaluation may be considered to reach a conclusion on the presence of a VEC due to an on-site source.

Off-Site: To conduct the VES of the nearby area, Nobis conducted a detailed review and analysis of the EDR report with particular focus on the following two types of sites:

1. Off-site properties that are impacted by non-petroleum spills or releases (i.e., chlorinated volatile organic compounds (CVOCs) and/or semi-volatile-organic compounds (SVOCs) and are located within approximately **1,750 feet** of the subject property, and,
2. Off-site properties that are impacted by petroleum spills or releases and are located within approximately **525 feet** of the subject property.

Our review of the site-specific environmental database indicates no presence of off-site properties that have been impacted by either petroleum or non-petroleum spills or releases within the above listed parameters. Based on this information, it is Nobis's opinion that a VEC at the subject property due to an off-site source does not exist.

4.3 Additional Environmental Sources

Based on the database listings provided by EDR, Nobis also completed an online database search using the NHDES's OneStop (<https://www4.des.state.nh.us/DESOnestop/BasicSearch.aspx>) for select listed facilities. Information pertaining to the select listed facilities identified above are summarized below.

Bristol Citgo, NHDES Site No. 199605035

Bristol Citgo is listed at 94 Lake Street according to NHDES Onestop database and was reviewed based on its address. The site locus in reports associated with this site showed that the site is slightly more than 0.5 mile from the subject property. A level 2 Site Investigation (SI) was requested by the NHDES on January 25, 2001, in a letter based on an underground storage tank closure report that found excess levels of benzene, methyl-tertiary-butyl-ether (MBTE) and total alkylbenzene contamination in the groundwater (CPI, 2001). The UST closure report, dated February 12, 2001, found levels of the above listed contaminants that exceeded the Risk Characterization and Management Policy (RCMP) GW-1 standards. No contamination was found in the soils. The Supplemental Site Investigation Report determined that the full areal extent of the groundwater plume was determined and that groundwater flow direction was to the southwest toward the Newfound River. Contaminant levels remained above the RCMP GW-1 standards. Tri-Annual groundwater sampling was recommended in addition to the development of a Remedial Action Plan (CPI, 2001). A follow up Supplemental Site Investigation indicated that analytical results of the three most recent groundwater sampling events indicated no exceedance of RCMP

Method 1, GW-1 Standards dating back to February 7, 2002. Results demonstrated a trend of decreasing contaminant concentrations and the occurrence of natural attenuation of the site's groundwater contamination (CPI, 2002). CPI recommended No Further Action at the site and the NHDES Concurred on April 22, 2004.

Park N Go Market, NHDES No. 198903046

Further review was conducted of the Park N Go Market site at 101 Lake Street, because it adjoins the subject property. There were documented releases of petroleum products from the site to the Newfound River in 2015 and detections of petroleum-related VOCs in site groundwater. These projects have closed regulatory status. The site is an active UST facility with a 14,000-gallon tank and a 5,000-gallon tank; the tanks were installed in 2015. The facility is in compliance with regulatory requirements and in an inferred hydrologically downgradient location relative to the subject property. The Park N Go Market is unlikely to adversely impact the subject property.

Town of Bristol Municipal Records

On June 18, 2025, Nobis reviewed records for the subject property at the Town of Bristol Offices. Historical documentation from the local records review is provided in Appendix E and summarized below.

Assessing Department: The office of the Town of Bristol Assessing Department provided access to the property file records for the subject property, including land value assessment records and ownership records.

Fire Department: Ingrid Heidenreich, Administrative Assistant for the Bristol Fire Department, was available to conduct a records search for the subject property. Available records only reached back to 2019. There were no records or reports of any response actions or spills or releases of petroleum or hazardous materials in the Fire Department's records.

Land Use Office: On July 12, 2025, Nobis inquired about the apparent street number changes in the Town of Bristol. Ashley Bureau, Administrative Assistant for the Land Use Department, confirmed that there was renumbering to comply with E911 requirements. She also provided information on some of the addresses in an email dated July 25, 2025.

4.4 Historical Use Information on the Site

Historical topographic maps, aerial photographs, Sanborn® Fire Insurance Maps and City-Directories obtained from EDR are provided in Appendix D. Review of the historical information included in the database report indicates the following:

Topographic Maps

Readily available historic USGS topographic maps dated 1925, 1927, 1930, 1956, 1987, 2001, 2012, 2015, 2018, and 2021 were provided by EDR, and were reviewed to ascertain area conditions.

The 1925 map depicts the subject property with the same surrounding streets as today. Development has already taken place on the subject property and along Lake, Pleasant, and North Main Streets. Kelley Park and Central Historic Square were devoid of any structures, similar to modern day. The 1927 map shows the same features as the 1925 map. The 1930 map was incomplete and lacks detail covering the subject property or any of the area within 0.25 mile the subject property.

The 1956 map displays additional development to the north of the subject property and the paving and development of 4th street to the southwest. A school is depicted to the north of the subject property for the first time.

The 1987 map depicts the presence of the structure currently located on the subject property. Additional residences have been constructed to the south along Pleasant Street and beyond. The 2001 map shows the same features as the 1987 map.

In the 2012 map residential structures are no longer depicted and instead the streets and topography are the only elements remaining on the map. This level of detail remains for the 2015, 2018 and 2021 maps. Locations of roads remain largely the same during the time between the drafting of each of these maps.

Sanborn Fire Insurance Maps

During the late 19th Century, companies such as the Sanborn® Company began preparing maps of central business districts for use by fire insurance companies. These maps were updated and expanded geographically periodically through the 20th Century. Fire insurance maps often indicate construction materials, specific property use, and the location of other features such as gasoline storage tanks.

EDR, a licensed Sanborn distributor, found Sanborn Maps covering the subject property for the years of 1902, 1912, 1923, 1929, 1939 and 1949.

The 1902 and 1912 maps display a dwelling within the subject property and a closely adjacent dwelling with attached stable. A repair shop is located opposite the subject property on Lake Street, but other adjoining properties are dwellings.

The 1923 map shows the same buildings and the introduction of a rifle gallery with a grandstand and Smith Shook & Lumber company and lumber stockpiles to the rear of the property along its northeast boundary. A 4-inch water pipe has also been constructed to connect to the grandstand of the rifle range. A garage and auto repair shop sits directly across the Subject Property on Lake Street just south of the repair shop. Development along Main Street is now illustrated in the 1923 map and each subsequent map. The map appears to show the subject property as 25 Lake St. and the adjoining property to the south/southeast as 19 Lake St.

The 1929 map displays a road added along the southern boundary of the property connecting Lake and North Main Streets behind the baseball park. Fencing has been constructed between the two dwellings within the property in addition to a separate residence adjacent to the new road. The lumber company from 1923 has been replaced with Hutchins & Hutchinson Lumber and Woodworking Mill. The lumber piles and lumber shed remain from the previous business. The rifle range has been removed; however, the grandstand remains in place. A second Auto repair shop has been added along Lake Street and across from the subject property.

The 1939 and 1949 maps are similar to the 1929 map. Some details have been added to both maps. A lumber stockpile sits adjacent to the grandstand and an additional log dump now lies within the area of the lumber and wood working mill. The grandstand is no longer present on the 1949 map and a woodshed has been constructed behind the residence that first appeared in 1929.

Aerial Photographs

Readily available historical aerial photographs supplied by EDR were reviewed for the subject property to obtain pertinent subject property information concerning the history of development on and in the vicinity of the subject property. Evaluation of these aerial photographs may be limited by the quality and scale of the image. Aerial photographs from 1956, 1960, 1975, 1981, 1986, 1998, 2008, 2011, 2014, 2018 and 2023 were reviewed and are summarized below.

The 1956, 1960, and 1975 images have poor resolution but display the same structures within the subject property as those which were detailed in earlier Sanborn maps. By 1975 the road connecting Lake and North Main Streets along the southern boundary of the subject property is no longer present and the lumber yard behind the subject property has been removed. The surrounding level of development is also consistent among these maps. On the 1981 image the subject property cannot be discerned.

The 1986 and 1998 images have finer resolution than previous aerial images. The structure that currently sits on the subject property has been constructed, and the original residential structures have been removed.

By 2008 the path behind the subject property and along Kelley Park and Central Square Historic District has been created. Otherwise there does not appear to be any additional development on or around the subject property. This detail remains consistent within the images from 2011, 2014, 2018 and 2023.

Local Street Directories

The city directories used in this study were made available through EDR and were reviewed at approximate 5-year intervals for historic subject property usage. City directories for the years 1992, 1995, 2000, 2005, 2010, 2014, 2017, and 2020 were reviewed during this assessment.

It is noted that street numbers on Lake Avenue were renumbered to comply with E911 requirements. According to the Town, the subject property was 25 Lake Street, and the adjoining property at 101 Lake Street was once 28 Lake Street. Addresses of adjoining properties were inferred based on information from the town, Sanborn Map representations, and directory listings.

The 1992 directory lists Scarlet Boutonniere at 25 Lake Street. There is no listing for 28 Lake Street, but Lakes Region Transit and Mell's Market & Deli are listed at 30 Lake Street. The Town of Bristol Fire Department is listed at 22 Lake Street in the 1992, 1995, and 2000 directories. Village Auto Center is listed at 19 Lake Street in the 1992, 1995, and 2000 directories.

The 1995 directory lists Bristol Insurance Agency Inc, Fox & Hound Gifts and Gourmet, Newfound Homes, Parkurst & Co, and R P Propane at 25 Lake Street. Mell's Market & Deli and Ryder Student Transportation Services Inc. are listed at 30 Lake Street in the 1995 and 2000 directories.

The 2000 directory lists Bristol Insurance Agency, Fox & Hound Gifts & Gourmet, Parkhurst & Company, and Parkhurst Construction at 25 Lake Street.

The 2005 directory lists John F. Bomster ESQ., an unknown entity, and Parkhurst Construction Co. as the occupants for 90 Lake Street. Only Michael Colby and Newfound Homes, Inc. are listed at 25 Lake Street, and Park & Go Market continues to be listed at 30 Lake Street in the 2005, 2010, 2014, and 2017 directories. Gilly's Restaurant is listed at 101 Lake Street in the 2005 and 2017 directories. The Bristol Fire Department is listed at 85 Lake Street in the 2005, 2010, 2014, 2017, and 2020 directories, and the Village Auto Center is listed at 64 Lake Street.

The 2010 directory lists Parkhurst & Co at 90 Lake Street. EVL Cycles and Lake Street Auto are listed at 64 Lake Street. Gilly's Breakfast & Lunch is listed at 101 Lake Street in the 2010, 2014, and 2020 directories.

The 2014 and 2017 directories indicate that Parkhurst Construction was joined by Kathleen's Cottages. The 2014 and 2017 directories list Bond Auto Parts at 64 Lake Street.

The 2020 directory lists Ray Parkhurst, Kathleens Irish Pub, and Eire Enterprises LLC as the occupants for 90 Lake Street. O'Reilly Auto Parts is listed at 64 Lake Street. Park & Go Market is listed at 101 Lake Street.

The directories list either the Newfound Area School District or Newfound Memorial Middle School at 155 North Main Street in the 2010-2020 directories, and First Student is also listed at 155 North Main Street in the 2014-2020 directories. There is a listing for the school district at 20 N. Main Street in the 2005 directory, and there are no listings in the directories prior to 2005 for the school or the two addresses associated with the school.

Date of Development

Based on the information compiled for the assessment, it appears that the subject property was first developed as a residential dwelling at least as early as 1850.

4.5 Historical Use Information on Adjoining Properties

Properties to the west, south, and east of the subject property were historically used for commercial and residential purposes. Properties to the west and along Lake Street included general repair and automotive repair shops dating back to 1902. The property at 85 Lake Street (formerly 22 Lake Street) was a fire station, which according to Town records was constructed in 1974. To the north/northwest, the adjoining property appears to have been residential, and according to Town records, a school was constructed on the 155 North Main Street parcel in 1947. By 1923 a Lumber yard and woodworking shop and a firing range were in operation immediately adjacent to the subject property and along North Main Street. The tiring range was removed by 1929, and by 1979 the lumber yard had been removed. Kelley Park and Central Square Historic District, including a baseball field, have been located immediately to the east of the subject property as early as 1902. By 1975, a stable within an adjacent property along North Main Street had been removed to allow for the inclusion of a second baseball/ softball field within Kelley Park. The area surrounding the subject property has remained developed for commercial and residential structures since at least 1902.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

Nobis conducted a reconnaissance of the subject property on June 18, 2025, to observe general site conditions. All portions of the subject property were made accessible during the site visit. General site features for the subject property are shown on Figure 2. Site photographs are provided on Figure 3.

5.2 General Site Setting

The subject property is located in a residential and commercial area. The subject property is generally flat and level. The surrounding topography slopes at a moderate gradient to the south/southwest toward Newfound River. The subject property has an approximate elevation of ± 466 feet above mean sea level.

Kelley Park is located to the east of the subject property. Commercial and residential properties are located north, south and west along Lake Street, Pleasant Street, and North Main Street. According to the Town of Bristol Zoning Map, the subject property and surrounding area are zoned as village commercial and village residential.

5.3 Exterior Observations

Refer to Section 2.5 for a general description of site development and features.

The subject property was surrounded by Lake Street to the southeast which leads into the main parking area at the front of the property and connects to a gravel path that encircles the building before reaching Lake Street on the opposite side of the restaurant. There were several stockpiles of furniture and restaurant equipment stacked on the exterior and to the rear of the structure. There were also stockpiles of wooden beams, concrete blocks, steel I-beams, and propane tanks lining the property boundary and covered in vegetation. In addition to this, there was a parked van and boat along the gravel path to the former hardware store's rear, a parked car adjacent to Lake Street at the northwest corner of the subject property, an empty shed, an unmarked 55-gallon closed top plastic drum, an underground propane tank, a dumpster, a used grease receptacle, and several additional stockpiles of wood, tires, and construction materials directly behind the former hardware store.

5.4 Interior Observations

The interior of the restaurant and event space still contained substantial amounts of glassware, plates, silverware, decorations, furniture, sinks, stoves, and other materials associated with the operations of the former restaurant. The hardware store contained a large quantity of what

appeared to be its former products, which included paints, fuel containers, tools, hardware, wood chips, and powered equipment. There was a section on the first floor used for shared storage between the restaurant and hardware store where many of the same products that were found in the hardware store were located. The attic was also used as a storage space and contained old furniture, decorations, and possibly products that were once for sale at the restaurant. The northwest corner of the attic held a living space/ apartment annex with a full bedroom, living room, and bathroom.

6.0 INTERVIEWS

6.1 Interview with Current Property Owner

The property owner was present during the site reconnaissance, and any information he provided has been incorporated throughout this report.

6.2 Interviews with Occupants

There are no current occupants of the subject property.

6.3 Interviews with Local Government Officials

Refer to Section 4.3 for additional information collected from representatives of the Town of Bristol.

6.4 Interviews with Others

Nobis did not interview others.

7.0 FINDINGS

The Findings of the ASTM E 1527-21 Phase I ESA identify the known or suspected *RECs*, *Controlled RECs*, *Historical RECs*, and/or *de minimis* conditions at the subject property. The Opinion (Section 8.0) will discuss the impact to the subject property (*i.e.*, *REC*, *Controlled REC*, *Historical REC*, or *de minimis* conditions) and present the logic and reasoning for making that determination. Based on the information collected during a Phase I ESA of the property located on Parcel 000113-000041-000000 in Bristol, New Hampshire. Nobis presents the findings detailed below.

The subject property encompasses an area of 1.99 acres, including a two-story vacant building constructed in 1980. The property has been owned by Parkhurst Revocable Living Trust since 1990.

Kelley Park is located to the east of the subject property. Commercial and residential properties are located north, south and west of the subject property along Lake Steet, Pleasant Street, and North

Main Street. According to the Town of Bristol Zoning Map, the subject property and surrounding area are zoned as village commercial and village residential. Overhead power lines serve the subject property and other commercial and residential properties in the immediate area. According to the Town of Bristol Zoning Map, the subject property and surrounding area are zoned as village commercial and village residential. Overhead power lines serve the subject property and other commercial and residential properties along Park and North Main Streets.

Nobis conducted a site reconnaissance on June 18, 2025. Observations of the property included the original brick house that had recently served as a restaurant and had been expanded into an additional event space that housed live music and a bar extension. The rest of the building was utilized as a hardware/ general store and storage space. The subject property was surrounded by Lake Street to the southeast which leads into the main parking area at the front of the property and connects to a gravel path that encircles the building before reaching Lake Street on the opposite side of the restaurant. There were several stockpiles of furniture and restaurant equipment stacked on the exterior and to the rear of the structure. There were also stockpiles of wooden beams, concrete blocks, steel I-beams, and propane tanks lining the property boundary and covered in vegetation. In addition to this, there was a parked van and boat along the gravel path to the former hardware store's rear, a parked car adjacent to Lake Street at the northwest corner of the subject property, an empty shed, an unmarked 55-gallon closed top plastic drum, an underground propane tank, a dumpster, a used grease receptacle, and several additional stockpiles of wood, tires, and construction materials directly behind the former hardware store.

The interior of the restaurant and event space still contained substantial amounts of glassware, plates, silverware, decorations, furniture and other materials associated with the operations of the former restaurant. The hardware store contained a large quantity of what appeared to be its former products, which included paints, fuel containers, tools, hardware, wood chips, and powered equipment. There was a section on the first floor used for shared storage between the restaurant and hardware store where many of the same products that were found in the hardware store were located. The attic was also used as a storage space and was lined with old furniture, decorations, and possibly products that were once for sale at the restaurant. The northwest corner of the attic held a living space/ apartment annex with a full bedroom, living room, and bathroom.

Historical data including topographic maps, aerial photographs, Sanborn maps, and municipal records suggest that the subject property was first developed as a residence as early as 1902. Bristol municipal records indicate that the Subject property is a historic landmark of Bristol. The original brick structure that was constructed on the property was finished in 1850 as a residence.

The EDR report indicated that the subject property was identified within the record listings for FINDS, ECHO, RCRA NonGen/NLR and RI Manifest databases because of its history as a hazardous waste generator.

8.0 OPINION

The Opinion of the ASTM E 1527-21 Phase I ESA defines the environmental professional's determination of the impact to the subject property (i.e., REC, HREC, CREC, DMC or VEC) of the conditions identified in the Findings (Section 7.0) and presents the logic and reasoning for making that determination. Based upon our review of the municipal and historical information available for the subject property and adjoining properties, as well as the observations made during this Phase I ESA, Nobis' opinions regarding the Findings of this Phase I ESA are detailed below.

Recognized Environmental Conditions

No RECs are associated with the subject property.

Historical Recognized Environmental Conditions

No *Historical RECs* were associated with the subject property.

Controlled Recognized Environmental Conditions

No *Controlled RECs* are associated with the subject property.

Vapor Encroachment Conditions

No *VECs* are associated with the subject property.

De Minimis Conditions

No *de minimis conditions* are associated with the subject property.

9.0 CONCLUSIONS

In accordance with ASTM Practice E 1527-21 requirements, the Environmental Professionals that prepared this Phase I ESA provide the following Statement of Conclusion:

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E 1527-21 of the Town of Bristol parcel number 000113-000041-000000. Any exceptions to, or deviations from, this practice are described in Sections 1.4 and 10.0 of this report.

This assessment has revealed no *RECs*, *HRECs*, *CRECs*, or significant data gaps in connection with the subject property.

10.0 DEVIATIONS

No substantive deviations from ASTM E 1527-21 were encountered during performance of this Phase I ESA. Limitations of this Phase I ESA are detailed in Section 1.4.

11.0 ADDITIONAL SERVICES

Additional Services are assessments, recommendations, or other details beyond the scope of ASTM Practice E 1527-21. No additional services were conducted as part of this assessment.

Based on no identified RECs, further assessment of potential releases is not warranted. However, given the age and construction of the building, it is likely that asbestos-containing materials, lead-based paint, and other potentially hazardous building materials were used during periods of construction. A hazardous building materials assessment may be warranted for future consideration of building renovation or demolition.

13.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

In accordance with ASTM Practice E 1527-21 12.13, Nobis provides the following statements of qualification:

We declare that, to the best of our professional knowledge and belief, we meet the definition of *environmental professionals* as defined in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject property. We have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

The qualifications of the *environmental professionals* who prepared, or supervised the preparation of, this report, and who are signatories of this report, are provided below.

Clarence “Tim” Andrews, PG

Director of State & Municipal Services

- State of New Hampshire Professional Geologist (NHPG License No. 743).
- Over 25 years of experience conducting various investigations to identify the extent of airborne, soil, and groundwater organic and inorganic contamination at residential, commercial, and industrial sites. Researched historical federal, state, local, and commercial records to collect background information for numerous environmental projects.
- Performed or overseen numerous Phase I ESAs and other environmental projects involving research, investigation, and data assessment of historical and current site conditions on current or former residential, commercial, and industrial properties. Investigations have included identification, assessment, and delineation of petroleum and hazardous substances released to the environment or with the potential for release to the environment.
- Project responsibilities have included interaction with clients and regulators; coordination and oversight of subcontractors; data collection, interpretation and presentation; and report preparation. Acts as technical lead or project manager on numerous water quality assessment projects and long-term monitoring projects.

Lori Cox, P.E.

Project Manager

- State of New Hampshire Professional Engineer

- Over 17 years as an engineer with project responsibilities that include coordination and oversight of investigation and remedial subcontractors; collection, interpretation, and presentation of data; assessment of remedial alternatives, operation and maintenance of remediation systems, and preparation of work plans, budgets, permit applications, and reports.
- Perform Phase I Environmental Site Assessments by researching historical property uses, reviewing available data, interviewing those with knowledge of the subject property, and assessing current conditions.
- Perform Vapor Encroachment Screenings.
- Train and supervise colleagues performing Phase I Environmental Site Assessments, groundwater monitoring, landfill post-closure monitoring, and data review.
- Assess sites using EPA's Hazard Ranking System to determine whether listing on the National Priorities List is warranted.

Benjamin Lasky

Project Geologist

- Bachelor of Science in Geology: 2019
- Experience overseeing and coordinating with subcontractors; sampling groundwater, air, and soil; analyzing environmental and geological data; and writing environmental reports.
- Performed Phase I ESAs and other environmental projects involving research, investigation, and data assessment of historical and current site conditions on current or former residential, commercial, and industrial properties.
- Project responsibilities have included interaction with clients and regulators; coordination and oversight of subcontractors; data collection, interpretation and presentation; and report preparation.

APPENDIX A LIMITATIONS

1. These environmental services were performed in accordance with generally accepted practices of other consultants undertaking similar assessments at the same time and in the same geographical area. The results of this assessment are based on our professional judgment and are not scientific certainties. Specifically, Nobis Group® does not and cannot represent that the site contains no hazardous wastes, oil, or other latent conditions beyond those observed during this assessment. No other warranty, express or implied, is made.
2. The observations and conclusions presented in this report were made solely on the basis of conditions described in the report and not on scientific tasks or procedures beyond the scope of described services or the budgetary and time constraints imposed by the client. The work described in this report was performed in accordance with the terms and conditions of our contract. No other warranty, express or implied, is made.
3. Observations were made of the site as indicated in this report. Where access to portions of the site was unavailable or limited, Nobis Group® renders no opinion as to the presence of hazardous wastes or the presence of indirect evidence of hazardous wastes in that portion of the site.
4. No property boundary, site feature, or topographic surveys of the site were performed by Nobis Group® unless specifically indicated in the text of the report.
5. No sampling or testing was performed for the presence of dioxins, furans, pesticides, herbicides, radon, lead paint, urea-formaldehyde, asbestos, or polychlorinated biphenyls (PCBs) at the site unless specifically indicated in the text of the report.
6. Except as noted within the text of the report, no quantitative laboratory testing was performed as part of this assessment. Where such analyses have been conducted by an outside laboratory, Nobis Group® has relied upon the data provided and has not conducted an independent evaluation of the reliability of these data.
7. Chemical analyses have been performed for specific parameters during this site assessment, as described in the text of the report. Additional chemical constituents not searched for during the current study may be present in soil and/or groundwater at the site.
8. This report has been prepared for the exclusive use by the Lakes Region Planning Commission and their attorneys solely for use in an environmental evaluation of the site. This report shall not, in whole or in part, be conveyed to any other party, other than those authorized by the Lake Region Planning Commission without prior written consent of Nobis Group®.

A P P E N D I X B

ASTM E 1527-21 PHASE I ENVIRONMENTAL SITE ASSESSMENT

USER QUESTIONNAIRE

Section 1 – General

The information requested in this section is intended to assist the environmental professional but is not necessarily required to qualify for one of the Landowner Liability Protections (See Section 2).

(1.) Why is the Phase I Environmental Site Assessment required?

We are receiving Federal funding and this is a requirement.

(2.) What is the type of property and type of property transaction (sale, purchase, exchange, etc.)?

Potential pending sale

(3.) What is the complete and correct address of the property?

90 Lake Street

Bristol, NH 03222

(4.) What is the scope of services desired for the Phase I?

Initial identification of any potential issues.

As described in the contract / work scope Yes ☒ No ☐

If No, please explain.

Are any considerations beyond the requirements of Practice E 1527 to be addressed?

Yes ☐ No ☒

If Yes, please explain.

(5.) Please identify all parties who will rely on the Phase I report.

Bristol Recreation Advisory Council

Maryann Parkhurst

HUD-CPF

(6.) Please identify the site contact and how the site contact can be reached.

Leslie Dion 603-744-2713 or 603-707-7315

(7.) Are there any special terms and conditions that must be agreed upon by the environmental professional? No

(8.) Do you have any knowledge or experience with the property that may be pertinent to the environmental professional (prior environmental reports, documents, correspondence, etc. concerning the environmental condition of the property). Attach additional sheets if required.
No

(9) Does the user intend to retain a title company or title professional to review reasonable ascertainable title and judicial records for environmental liens or activity and use limitations (AULs)?

Yes ☒ No ☐

If Yes, will the results of the review be provided to the environmental professional?

Yes ☐ No ☐ - if necessary

Section 2 - Landowner Liability Protections

In order to qualify for one of the Landowner Liability Protections (LLPs)¹ offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “Brownfields Amendments”), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that “all appropriate inquiry” is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

No

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs , such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

No

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? If “yes”, please explain.

No

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Yes

(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a.) Do you know the past uses of the property?

Yes

(b.) Do you know of specific chemicals that are present or once were present at the property?

No

(c.) Do you know of spills or other chemical releases that have taken place at the property?

(d.) Do you know of any environmental cleanups that have taken place at the property?

No

(6.) The degree of obviousness of the presence of likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?

No

User Signature

I have answered the above questions in good faith and based on my knowledge of the property.

Printed Name Leslie Dion

Title Director of Recreation

Signature

A handwritten signature in cursive script that reads "Leslie Dion".

Custom Soil Resource Report for **Grafton County, New Hampshire**

June 3, 2025

Preface

Soil surveys contain information that affects land use planning in survey areas. They highlight soil limitations that affect various land uses and provide information about the properties of the soils in the survey areas. Soil surveys are designed for many different users, including farmers, ranchers, foresters, agronomists, urban planners, community officials, engineers, developers, builders, and home buyers. Also, conservationists, teachers, students, and specialists in recreation, waste disposal, and pollution control can use the surveys to help them understand, protect, or enhance the environment.

Various land use regulations of Federal, State, and local governments may impose special restrictions on land use or land treatment. Soil surveys identify soil properties that are used in making various land use or land treatment decisions. The information is intended to help the land users identify and reduce the effects of soil limitations on various land uses. The landowner or user is responsible for identifying and complying with existing laws and regulations.

Although soil survey information can be used for general farm, local, and wider area planning, onsite investigation is needed to supplement this information in some cases. Examples include soil quality assessments (<http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/health/>) and certain conservation and engineering applications. For more detailed information, contact your local USDA Service Center (<https://offices.sc.egov.usda.gov/locator/app?agency=nrcs>) or your NRCS State Soil Scientist (http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/contactus/?cid=nrcs142p2_053951).

Great differences in soil properties can occur within short distances. Some soils are seasonally wet or subject to flooding. Some are too unstable to be used as a foundation for buildings or roads. Clayey or wet soils are poorly suited to use as septic tank absorption fields. A high water table makes a soil poorly suited to basements or underground installations.

The National Cooperative Soil Survey is a joint effort of the United States Department of Agriculture and other Federal agencies, State agencies including the Agricultural Experiment Stations, and local agencies. The Natural Resources Conservation Service (NRCS) has leadership for the Federal part of the National Cooperative Soil Survey.

Information about soils is updated periodically. Updated information is available through the NRCS Web Soil Survey, the site for official soil survey information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require

alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

How Soil Surveys Are Made

Soil surveys are made to provide information about the soils and miscellaneous areas in a specific area. They include a description of the soils and miscellaneous areas and their location on the landscape and tables that show soil properties and limitations affecting various uses. Soil scientists observed the steepness, length, and shape of the slopes; the general pattern of drainage; the kinds of crops and native plants; and the kinds of bedrock. They observed and described many soil profiles. A soil profile is the sequence of natural layers, or horizons, in a soil. The profile extends from the surface down into the unconsolidated material in which the soil formed or from the surface down to bedrock. The unconsolidated material is devoid of roots and other living organisms and has not been changed by other biological activity.

Currently, soils are mapped according to the boundaries of major land resource areas (MLRAs). MLRAs are geographically associated land resource units that share common characteristics related to physiography, geology, climate, water resources, soils, biological resources, and land uses (USDA, 2006). Soil survey areas typically consist of parts of one or more MLRA.

The soils and miscellaneous areas in a survey area occur in an orderly pattern that is related to the geology, landforms, relief, climate, and natural vegetation of the area. Each kind of soil and miscellaneous area is associated with a particular kind of landform or with a segment of the landform. By observing the soils and miscellaneous areas in the survey area and relating their position to specific segments of the landform, a soil scientist develops a concept, or model, of how they were formed. Thus, during mapping, this model enables the soil scientist to predict with a considerable degree of accuracy the kind of soil or miscellaneous area at a specific location on the landscape.

Commonly, individual soils on the landscape merge into one another as their characteristics gradually change. To construct an accurate soil map, however, soil scientists must determine the boundaries between the soils. They can observe only a limited number of soil profiles. Nevertheless, these observations, supplemented by an understanding of the soil-vegetation-landscape relationship, are sufficient to verify predictions of the kinds of soil in an area and to determine the boundaries.

Soil scientists recorded the characteristics of the soil profiles that they studied. They noted soil color, texture, size and shape of soil aggregates, kind and amount of rock fragments, distribution of plant roots, reaction, and other features that enable them to identify soils. After describing the soils in the survey area and determining their properties, the soil scientists assigned the soils to taxonomic classes (units). Taxonomic classes are concepts. Each taxonomic class has a set of soil characteristics with precisely defined limits. The classes are used as a basis for comparison to classify soils systematically. Soil taxonomy, the system of taxonomic classification used in the United States, is based mainly on the kind and character of soil properties and the arrangement of horizons within the profile. After the soil

scientists classified and named the soils in the survey area, they compared the individual soils with similar soils in the same taxonomic class in other areas so that they could confirm data and assemble additional data based on experience and research.

The objective of soil mapping is not to delineate pure map unit components; the objective is to separate the landscape into landforms or landform segments that have similar use and management requirements. Each map unit is defined by a unique combination of soil components and/or miscellaneous areas in predictable proportions. Some components may be highly contrasting to the other components of the map unit. The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The delineation of such landforms and landform segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, onsite investigation is needed to define and locate the soils and miscellaneous areas.

Soil scientists make many field observations in the process of producing a soil map. The frequency of observation is dependent upon several factors, including scale of mapping, intensity of mapping, design of map units, complexity of the landscape, and experience of the soil scientist. Observations are made to test and refine the soil-landscape model and predictions and to verify the classification of the soils at specific locations. Once the soil-landscape model is refined, a significantly smaller number of measurements of individual soil properties are made and recorded. These measurements may include field measurements, such as those for color, depth to bedrock, and texture, and laboratory measurements, such as those for content of sand, silt, clay, salt, and other components. Properties of each soil typically vary from one point to another across the landscape.

Observations for map unit components are aggregated to develop ranges of characteristics for the components. The aggregated values are presented. Direct measurements do not exist for every property presented for every map unit component. Values for some properties are estimated from combinations of other properties.

While a soil survey is in progress, samples of some of the soils in the area generally are collected for laboratory analyses and for engineering tests. Soil scientists interpret the data from these analyses and tests as well as the field-observed characteristics and the soil properties to determine the expected behavior of the soils under different uses. Interpretations for all of the soils are field tested through observation of the soils in different uses and under different levels of management. Some interpretations are modified to fit local conditions, and some new interpretations are developed to meet local needs. Data are assembled from other sources, such as research information, production records, and field experience of specialists. For example, data on crop yields under defined levels of management are assembled from farm records and from field or plot experiments on the same kinds of soil.

Predictions about soil behavior are based not only on soil properties but also on such variables as climate and biological activity. Soil conditions are predictable over long periods of time, but they are not predictable from year to year. For example, soil scientists can predict with a fairly high degree of accuracy that a given soil will have a high water table within certain depths in most years, but they cannot predict that a high water table will always be at a specific level in the soil on a specific date.

After soil scientists located and identified the significant natural bodies of soil in the survey area, they drew the boundaries of these bodies on aerial photographs and

Custom Soil Resource Report

identified each as a specific map unit. Aerial photographs show trees, buildings, fields, roads, and rivers, all of which help in locating boundaries accurately.

Soil Map

The soil map section includes the soil map for the defined area of interest, a list of soil map units on the map and extent of each map unit, and cartographic symbols displayed on the map. Also presented are various metadata about data used to produce the map, and a description of each soil map unit.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Grafton County, New Hampshire
Survey Area Data: Version 28, Sep 3, 2024

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Oct 6, 2022—Oct 22, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Descriptions

The map units delineated on the detailed soil maps in a soil survey represent the soils or miscellaneous areas in the survey area. The map unit descriptions, along with the maps, can be used to determine the composition and properties of a unit.

A map unit delineation on a soil map represents an area dominated by one or more major kinds of soil or miscellaneous areas. A map unit is identified and named according to the taxonomic classification of the dominant soils. Within a taxonomic class there are precisely defined limits for the properties of the soils. On the landscape, however, the soils are natural phenomena, and they have the characteristic variability of all natural phenomena. Thus, the range of some observed properties may extend beyond the limits defined for a taxonomic class. Areas of soils of a single taxonomic class rarely, if ever, can be mapped without including areas of other taxonomic classes. Consequently, every map unit is made up of the soils or miscellaneous areas for which it is named and some minor components that belong to taxonomic classes other than those of the major soils.

Most minor soils have properties similar to those of the dominant soil or soils in the map unit, and thus they do not affect use and management. These are called noncontrasting, or similar, components. They may or may not be mentioned in a particular map unit description. Other minor components, however, have properties and behavioral characteristics divergent enough to affect use or to require different management. These are called contrasting, or dissimilar, components. They generally are in small areas and could not be mapped separately because of the scale used. Some small areas of strongly contrasting soils or miscellaneous areas are identified by a special symbol on the maps. If included in the database for a given area, the contrasting minor components are identified in the map unit descriptions along with some characteristics of each. A few areas of minor components may not have been observed, and consequently they are not mentioned in the descriptions, especially where the pattern was so complex that it was impractical to make enough observations to identify all the soils and miscellaneous areas on the landscape.

The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The objective of mapping is not to delineate pure taxonomic classes but rather to separate the landscape into landforms or landform segments that have similar use and management requirements. The delineation of such segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, however, onsite investigation is needed to define and locate the soils and miscellaneous areas.

Custom Soil Resource Report

An identifying symbol precedes the map unit name in the map unit descriptions. Each description includes general facts about the unit and gives important soil properties and qualities.

Soils that have profiles that are almost alike make up a *soil series*. Except for differences in texture of the surface layer, all the soils of a series have major horizons that are similar in composition, thickness, and arrangement.

Soils of one series can differ in texture of the surface layer, slope, stoniness, salinity, degree of erosion, and other characteristics that affect their use. On the basis of such differences, a soil series is divided into *soil phases*. Most of the areas shown on the detailed soil maps are phases of soil series. The name of a soil phase commonly indicates a feature that affects use or management. For example, Alpha silt loam, 0 to 2 percent slopes, is a phase of the Alpha series.

Some map units are made up of two or more major soils or miscellaneous areas. These map units are complexes, associations, or undifferentiated groups.

A *complex* consists of two or more soils or miscellaneous areas in such an intricate pattern or in such small areas that they cannot be shown separately on the maps. The pattern and proportion of the soils or miscellaneous areas are somewhat similar in all areas. Alpha-Beta complex, 0 to 6 percent slopes, is an example.

An *association* is made up of two or more geographically associated soils or miscellaneous areas that are shown as one unit on the maps. Because of present or anticipated uses of the map units in the survey area, it was not considered practical or necessary to map the soils or miscellaneous areas separately. The pattern and relative proportion of the soils or miscellaneous areas are somewhat similar. Alpha-Beta association, 0 to 2 percent slopes, is an example.

An *undifferentiated group* is made up of two or more soils or miscellaneous areas that could be mapped individually but are mapped as one unit because similar interpretations can be made for use and management. The pattern and proportion of the soils or miscellaneous areas in a mapped area are not uniform. An area can be made up of only one of the major soils or miscellaneous areas, or it can be made up of all of them. Alpha and Beta soils, 0 to 2 percent slopes, is an example.

Some surveys include *miscellaneous areas*. Such areas have little or no soil material and support little or no vegetation. Rock outcrop is an example.

Grafton County, New Hampshire

36A—Adams loamy sand, 0 to 3 percent slopes

Map Unit Setting

National map unit symbol: 2x1c9

Elevation: 10 to 2,000 feet

Mean annual precipitation: 31 to 95 inches

Mean annual air temperature: 27 to 52 degrees F

Frost-free period: 90 to 160 days

Farmland classification: Farmland of local importance

Map Unit Composition

Adams and similar soils: 85 percent

Minor components: 15 percent

Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Adams

Setting

Landform: Outwash deltas

Landform position (two-dimensional): Summit, backslope

Landform position (three-dimensional): Base slope

Down-slope shape: Linear

Across-slope shape: Linear

Parent material: Sandy glaciofluvial deposits

Typical profile

Ap - 0 to 7 inches: loamy sand

Bs - 7 to 21 inches: sand

BC - 21 to 27 inches: sand

C - 27 to 65 inches: sand

Properties and qualities

Slope: 0 to 3 percent

Depth to restrictive feature: More than 80 inches

Drainage class: Somewhat excessively drained

Capacity of the most limiting layer to transmit water (Ksat): Moderately high to high
(1.42 to 14.17 in/hr)

Depth to water table: More than 80 inches

Frequency of flooding: None

Frequency of ponding: None

Maximum salinity: Nonsaline (0.0 to 1.9 mmhos/cm)

Available water supply, 0 to 60 inches: Low (about 3.6 inches)

Interpretive groups

Land capability classification (irrigated): None specified

Land capability classification (nonirrigated): 3s

Hydrologic Soil Group: A

Ecological site: F144BY601ME - Dry Sand

Hydric soil rating: No

Minor Components

Colton

Percent of map unit: 8 percent

Custom Soil Resource Report

Landform: Outwash deltas
Landform position (two-dimensional): Summit, backslope
Landform position (three-dimensional): Base slope
Down-slope shape: Convex
Across-slope shape: Convex
Hydric soil rating: No

Croghan

Percent of map unit: 5 percent
Landform: Outwash deltas
Landform position (two-dimensional): Backslope
Landform position (three-dimensional): Base slope
Down-slope shape: Linear
Across-slope shape: Linear
Hydric soil rating: No

Nicholville

Percent of map unit: 2 percent
Landform: Outwash deltas
Landform position (two-dimensional): Footslope
Landform position (three-dimensional): Base slope
Down-slope shape: Linear
Across-slope shape: Convex
Hydric soil rating: No

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA generators

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 02/17/2025 has revealed that there are 3 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

NH SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environmental Services' Hazardous Waste Inventory list.

A review of the NH SHWS list, as provided by EDR, and dated 01/27/2025 has revealed that there are 2 NH SHWS sites within approximately 1 mile of the target property.

Local Lists of Hazardous waste / Contaminated Sites

NH ALLSITES: Provides information on sites in New Hampshire, with activities that either have resulted in groundwater contamination or pose a potential hazard to groundwater supplies. The regulated activities and groundwater hazards include: confirmed releases of oil or hazardous materials to the soil and/or groundwater as a result of discharges, spills, and removal of underground storage tanks; underground injection wells such as floor drains, leaching galleries, and septic systems anything other than domestic wastewater; large discharges of wastewater such as domestic wastewater septic systems which are designed to discharge more than 20,000 gpd, land application of wastewater treatment facility effluent (spray irrigation, rapid infiltration rapid infiltration basins, etc.) and unlined septage and wastewater lagoons; unpermitted hazardous waste storage facilities; landfills and other waste repositories in which groundwater quality is at risk.

A review of the NH ALLSITES list, as provided by EDR, and dated 01/27/2025 has revealed that there are 19 NH ALLSITES sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 02/17/2025 has revealed that there are 28 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 9 UST FINDER sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 6 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 8 EDR Hist Auto sites within approximately 0.125 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste

Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone

Waste Code:	F001
Waste Description:	The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code:	F002
Waste Description:	The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The

Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste

Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	D040
Waste Description:	Trichloroethylene
Waste Code:	F001
Waste Description:	The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	U028
Waste Description:	1,2-Benzenedicarboxylic Acid, Bis(2-Ethylhexyl) Ester (Or) Diethylhexyl Phthalate

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 03/27/2025	Source: EPA

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/27/2025	Source: EPA
Date Data Arrived at EDR: 04/01/2025	Telephone: N/A
Date Made Active in Reports: 04/24/2025	Last EDR Contact: 06/02/2025
Number of Days to Update: 23	Next Scheduled EDR Contact: 07/07/2025
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/20/2024

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Next Scheduled EDR Contact: 07/21/2025
Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 02/17/2025	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/19/2025	Telephone: (888) 372-7341
Date Made Active in Reports: 03/06/2025	Last EDR Contact: 03/18/2025
Number of Days to Update: 15	Next Scheduled EDR Contact: 06/30/2025

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 02/17/2025	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/19/2025	Telephone: (888) 372-7341

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 02/17/2025	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/19/2025	Telephone: (888) 372-7341

Number of Days to Update: 15	Next Scheduled EDR Contact: 06/30/2025
	Data Release Frequency: Quarterly

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 02/17/2025	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/19/2025	Telephone: (888) 372-7341

Lists of state- and tribal hazardous waste facilities

SHWS: Listing of All Sites

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Care Facility List

Source: Department of Health & Human Services

Telephone: 603-271-4624

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

GOULD HOUSE
90 LAKE STREET
BRISTOL, NH 03222

TARGET PROPERTY COORDINATES

Latitude (North):	43.592411 - 43° 35' 32.68"
Longitude (West):	71.740955 - 71° 44' 27.44"
Universal Transverse Mercator:	Zone 19
UTM X (Meters):	278737.0
UTM Y (Meters):	4830039.5
Elevation:	466 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	17175739 BRISTOL, NH
Version Date:	2021
Southwest Map:	17175745 DANBURY, NH
Version Date:	2021

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
33009C1178E	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>

33009C1176E	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
BRISTOL	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Adams

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 705 Min: 141.1111	Max: 6.5 Min: 4.5
2	5 inches	25 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 705 Min: 141.1111	Max: 6.5 Min: 4.5
3	25 inches	64 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 705 Min: 141.1111	Max: 6.5 Min: 4.5

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: Adams

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

3	0 inches	11 inches	fine sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14.1111 Min: 4.2333	Max: 6.5 Min: 4.5

Soil Map ID: 12

Soil Component Name: Monadnock

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42.3333 Min: 14.1111	Max: 6 Min: 3.6
2	5 inches	22 inches	very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42.3333 Min: 14.1111	Max: 6 Min: 3.6
3	22 inches	64 inches	loamy sand	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42.3333 Min: 14.1111	Max: 6 Min: 3.6

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: US Fish & Wildlife Service

Telephone: 703-358-2171

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Nobis Group were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Contact: Benjamin Lasky

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Nobis Group were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

Individuals who need auxiliary aids for effective communication in programs and services of the Department of Revenue Administration are invited to make their needs and preferences known to the Department.

**NOTICE OF DENIAL
OF MEALS AND RENTALS TAX OPERATOR'S LICENSE RENEWAL
FOR EIRE ENTERPRISES, LLC DBA KATHLEEN'S IRISH PUB**

Notice is hereby given that the renewal of the above-referenced Meals and Rentals License number 062966 is denied. On December 10, 2019, Denise A. Daniel, Hearing Officer, denied the Meals and Rentals License Tax Operator's License renewal for Eire Enterprises, LLC dba Kathleen's Irish Pub. The Order issued on December 10, 2019, is a Final Order. Pursuant to RSA 78-A:5, II, the Operator had until December 20, 2019, (10 days) to appeal the Hearing Officer's decision by filing an appeal with the Board of Tax and Land Appeals or the Superior Court in the county in which the Operator conducts its business. The Operator filed an appeal with the Board of Tax and Land Appeals January 30, 2020. The Board of Tax and Land Appeals dismissed the appeal May 8, 2020. The Department has verified no appeal to the New Hampshire Superior or Supreme Court has been filed as of August 8, 2020. As no further appeals have been filed, the decision of the Hearing Officer is final and the renewal of Meals and Rentals License Number 062966 is denied.

Further, you are put on notice that pursuant to RSA 78-A:4 you are prohibited from serving taxable meals, renting rooms or renting motor vehicles. If you serve taxable meals, rent rooms, or rent motor vehicles without a license, you are subject to the criminal penalty provisions of RSA 21-J:39.

By Order of the Commissioner of the Department of Revenue Administration.

CEASE AND DESIST ORDER

September 27, 2019

Kathleen's Cottage
90 Lake St
Bristol, NH 03222

RE: Sign Installation
Map/Lot #113-041

Dear Property Owner,

Acting upon a concern regarding what appears to be a proposed sign installation for the property located at 90 Lake Street, our Land Use Officer, Peter Daniels visited the location. At the visit, it was noted that there are three (3) concrete posts installed in the ground between the Kathleen's Cottage property and the O'Reilly's property. There is no record on file, that a sign permit has ever been applied for, therefore, the Land Use Office is issuing a Cease and Desist Order until the following items have been addressed:

1. What size is the new sign?
2. What is the height of the new sign?
3. How far from the State right-of-way is the proposed sign?
4. How far from the side boundary is the proposed sign?
5. Did you contact the Water / Sewer Department regarding line locations so as not to block or damage existing lines?
6. Will the sign be illuminated either internally or externally?
7. What will become of the old sign?

You must address the items above with the Land Use Office and apply for a Sign Permit by October 4, 2019, including a \$25.00 fee. Should you have any questions regarding this, please contact either myself or Peter Daniels.

BY ORDER OF THE LAND USE OFFICE

Christina Goodwin
Assessing / Land Use Manager

Property Owner:

Parkhurst

Inspection Officer / Note
Completed by:

Christina Goodwin

Conditions Noted:

Maryann called about the Cease and Desist Order for a sign. She explained that the location is not a sign. She said it was some type of garden club and Eagle Scout project and they asked if she could put it on the property and she said okay.

I let her know that the location is bad for a couple of reasons – water lines are here and it is partially in the State's ROW.

Will reach out to Eagle Scouts to address.

PLANNING BOARD MINUTES
June 13, 2018

APPROVED:

AGENDA: CONTINUED COMPLIANCE, 17MSPR04: VACATION PARADISE REALTY TRUST,
16 & 20 Central Street, #114-121 & -122

PCC: MARYANN PARKHURST

PCC: PAUL THOMPSON

PCC: BARRY WOODMAN

PCC: DON MILBRAND

ATTENDING: Denice DeStefano (Chairman), Clay Dingman (Vice-Chairman), Don Milbrand (Sel. Rep.),
Dan Paradis, Betty Seeler

ABSENT: Sathesh Mina (alternate)

OTHER: Christina Goodwin (Land Use Manager), applicants

The meeting opened at 7:00p.m. with a quorum.

COMPLIANCE, 17MSPR04: VACATION PARADISE REALTY TRUST

The applicant has again asked for a continuation; this time to August.

C. Dingman made a MOTION, second by D. Milbrand, to CONTINUE THE COMPLIANCE HEARING FOR VACATION PARADISE REALTY TRUST TO AUGUST 8, 2018. The motion CARRIED.

PCC: MARYANN PARKHURST, 90 Lake St.

Ms. DeStefano explained that a PCC is not binding on either the applicant or the Board but will be the best advice that the Board can give based on what is presented and she cautioned that nothing is done financially until all approvals have been met.

Ms. Parkhurst stated that she wishes to open a Butcher Shop in the old paint section of the building. She intends to have meats, cheeses, seafood, beer and wine for sale there. It was determined that the property is in the Village Commercial district and comes under Retail Sales which is an allowed use. It will be one allowed use to another.

Ms. Goodwin asked about parking and mentioned the clutter in the rear parking area. Ms. Parkhurst stated that they have started clearing that area. Mr. Milbrand felt that the requirement for parking will be the same. Ms. DeStefano asked the hours of the new business and was told probably up to 7:00 or 8:00pm weekends and to 6:00pm weekdays. Ms. DeStefano then asked when Ms. Parkhurst intends to open and Ms. Parkhurst answered before fall. Mr. Dingman asked the size and was told about 1200 square feet. Ms. DeStefano asked about deliveries and was told that it will be the same as now.

-2-
Planning Board Minutes
6/13/18

PARKHURST continued:

Ms. Parkhurst mentioned that she would like to add a Steakhouse and Brewery down the line. It would be in the middle section of the building with a large kitchen to service it and Kathleen's Cottage. The Board determined that she is okay with the Butcher Shop for now but will need Site Plan before adding the Steakhouse and Brewery.

PCC: PAUL THOMPSON, 15 TRISTAN LANE

As the applicant was in attendance when Ms. DeStefano explained the PCC process, she did not repeat it. Mr. Thompson stated that he has lot #12 and Mary O'Mara has #15. They wish to do a lot line adjustment which would make lot #12 more conforming but lot #15 non-conforming. Ms. O'Mara does not use this area and Mr. Thompson would like it to store his boat and add a shed, which he cannot do now due to size.

The Board determined that it would be against Zoning to make lot #15 non-conforming. Mr. Paradis directed the Board to section 4.1 in Site Plan. Ms. DeStefano read this aloud. Mr. Paradis questioned the size and Mr. Thompson answered that it reduces her lot to about ½ acre (.55). This is in the Lake district. Lot #12 would be more conforming and there are quite a few lots in the area that are only ½ an acre. Mr. Paradis pointed out 8.10 of Site Plan. Mr. Dingman stated that it is okay for the Site Plan regulations but he is stuck on the minimum lot size in the Zoning Ordinance. He mentioned the Williams case, which is nearby, and feels that it would meet the spirit of the ordinance. Ms. DeStefano agreed. A discussion was held as to the need of a Variance. Mr. Dingman thought it might be just a simple lot line adjustment but would like a legal opinion based on spirit of the ordinance.

Mr. Paradis suggested that they might keep #15 at 30,000 sq. ft. (conforming) and adjust the rest to #12. Mr. Thompson felt that it would be too small to warrant that. Mr. Dingman stated that it is grandfathered as is right now. Ms. Goodwin will reach out to the attorney and asked clarification: if the attorney says it would be okay, it will be a lot line adjustment; if he says no, it will mean a Variance. The Board agreed.

PCC: BARRY WOODMAN, 211 PEAKED HILL ROAD

Ms. DeStefano read the process for a PCC again. Mr. Woodman wishes to expand to outside seating for his brewery. A proposed plan of the area to be used was shown. This is in the Rural district. Mr. Dingman felt that some sort of Site Plan would be needed. Ms. DeStefano read 8.3 of the Site Plan Regulations and the Board felt that it could be a Minor Site Plan. Ms. DeStefano explained that the forms are on line and Mr. Woodman should see Ms. Laferriere or Ms. Goodwin for assistance. Ms. Goodwin made an appointment with them for tomorrow at 4:00pm. If all is ready by Friday, June 15, it will be heard on July 11th.

PCC: DON MILBRAND, HEMP HILL ROAD

Ms. Goodwin stated that Mr. Milbrand came in for PCC's on this proposal in 2009 and 2012. In 2012, it was determined that he could do a minor site plan. This is the Rural district. Mr. Milbrand stated that this is for a brewery for the existing portion of the building/barn. Nothing will change on the exterior. He will need an additional sign as this is an additional use. He would seat about 24 people. He explained that if he has more, the State puts it into another category. He will need a State kitchen

-3-
Planning Board Minutes
6/13/18

MILBRAND continued:

license as a restaurant is required with a brewery. In the past, he had spoken with the Fire Chief but will update with the new Fire Chief again. Ms. DeStefano stated that Mr. Milbrand should get something in writing from the Fire Chief.

Mr. Milbrand went on to say that he has 7 parking spaces now but will have plenty of room for the additional need. Mr. Dingman stated that he would prefer that they not stripe the parking spaces. Mr. Milbrand then asked the timing of the restaurant and the brewery; will he need to do both at the exact same time. He would get the restaurant in first. Ms. DeStefano stated that the State may have a time line but we won't have a problem if it is done in a reasonable amount of time and present a time frame for us. Mr. Dingman added that he would need to get the brewery added fairly soon so as to avoid having to do a Special Exception. Ms. DeStefano stated that the State Regulation comes under RSA178:13.

Mr. Milbrand went on to say that he would be required to be open 5 days a week so is planning Friday through Tuesday, from 4:00 to 11:00pm. In the winter, he gets snowmobilers and would like to open for the noon meal, as well (open at 11:00am). He will need both a State and Federal brewery license. Ms. DeStefano said that the Board could make those conditional until we get copies of those permits.

MINUTES OF MAY 23, 2018

C. Dingman made a motion, second by D. Paradis, to approve the minutes as written. The motion carried with one abstention.

COMMUNICATIONS:

Ms. DeStefano read the notice for assistance from the Newfound Lake Region Association and Steve Whitman. Ms. DeStefano asked if we want to meet with them in this regard. Mr. Dingman felt that our plate is already pretty full but if there is something that the contracted person can do for forms, etc., it might be good. Ms. Goodwin will look into that. Mr. Paradis had a copy of an old flow chart which Ms. Goodwin took a picture of so that she can update it.

REPORTS:

HDC – Mr. Dingman reported that they met last night. They went over their forms and discussed a CLG grant that the town has been awarded (\$6300.00) for archeological survey of our burial grounds with a follow-up for and educational workshop with Tom Wetzell. The workshop is a 60/40 grant (survey is 100%) and will be done in 2019 probably.

Selectmen – Mr. Milbrand reported that there is an Eagle Scout willing to make picnic tables and benches for various areas around town. Also, the Selectmen have officially named the park on Central St. "Eagle Scout Park". They are also moving forward with negotiations for the Medical Building on School Street.

CIP – Will meet in July.

-4-
Planning Board Minutes
6/13/18

REPORTS continued:

Land Use – Ms. Goodwin stated that plans are moving forward on Mill Stream park. There will be a little extra money left after the kiosk is done so that a little more can be done. Better arrangements are being made.

The Zoning Board Appeal hearing has been continued to June 26th. Our attorney was great. The ZBA consisted of just 3 members and the applicants determined to continue despite the fact that all 3 must agree in order for the hearing to be approved. The big issue is boat storage and whether or not it means Commercial or all boat storage. Ms. Goodwin is researching to prove that we have always addressed it as Commercial for needing a Special Exception. The definition has not been changed since its incorporation in 1990 and only the Lake District has this requirement which implies it is for commercial. Special Exception was put in later than the definition. 2006 is the most recent change. In 2010, Turner's came in about outside boat storage and was not told that they needed Special Exception at that time.

In order to catch up, the Land Use office will be closed to the public on Thursday now.

Ms. DeStefano asked if there is any progress for hiring a new Planner. Ms. Goodwin answered that they are to do a 2nd interview with two that have applied.

Ms. Goodwin stated that someone in the Square wishes to place two tv's in their window, one with a map of the town and the other a rolling one of events. She asked if they should come for a PCC. Mr. Dingman felt that they constitute signs and need a PCC and then come to the HDC.

Ms. Goodwin next mentioned that Lin Cross will be receiving her 2nd letter (she mailed today) concerning their signs. They have 3 with no permits and 1 of those is on the side of the building not abutting a street and is not allowed. Next she will give a notice to the Select Board regarding this situation.

OTHER:

Ms. DeStefano mentioned a property on Wicom Road that has a full dumpster that has been there for some time. She noted that garbage is now being added and she is concerned that it will become a health problem. Ms. Goodwin will look into this.

Ms. DeStefano had a suggestion for abutter notices from the city of Concord. Ms. Goodwin explained that we already include this information when we sent out the notices.

NEXT MEETING:

Our next meeting is June 27th. We have a PCC with West Shore Marine, meet with the EDC and work on the survey. It was thought that the EDC is coming to talk about Zoning Amendments.

With no other business before the Board, they adjourned at 8:35p.m.

Respectfully submitted

Jan Laferriere,

Land Use Admin. Assistant

HARDWARE, 838 Lake St., #216-099

ATTEND: Denice DeStefano (Chairman), Dan Paradis (Vice Chair), Paul Manganiello
(Sel. Rep.), Debbie Denning, Clay Dingman, Steve Favorite, Betty Seeler

ABSENT: -----

OTHER: Michael Capone (Town Administrator), Steve Yannuzzi (Fire Chief),
applicants and public.

The meeting opened at 7:00 p.m. with a quorum. Mr. Paradis presided until Ms. DeStefano arrived (she was returning from a trip away).

MINOR SITE PLAN REVIEW: MARYANN & RAY PARKHURST

The revised plan was presented and the Board looked for the items to be included. Per Mr. Paradis calculations for parking, with the 25% reduction, the total should be 69. The Board had no problem with the 72 listed on the plan. Everything else had been included.

C. Dingman made a MOTION, second by E. Seeler, to ACCEPT THE MINOR SITE PLAN AS COMPLETE. The motion CARRIED.

Mr. Paradis then read the Fire Chief's letter of October 13, 2015 which lists the items required for the life safety code. Chief Yannuzzi explained that he met with Maryann Parkhurst today and the requirements (through #7) are to be completed before he can issue an assembly permit and then, once those are complete, Ms. Parkhurst will have 6 months to put in the sprinkler system.

Boake Morrison, resident, asked if this is required for everyone in town and Mr. Yannuzzi answered that this is going from business to assembly occupancy and requires the life safety code. This is a requirement for all assembly occupancies. Mr. Dingman asked if the parking spaces will be cleared and Ray Parkhurst stated that they will be clear.

Planning Board Minutes
10/14/15

PARKHURST MINOR SITE PLAN continued:

E. Seeler made a MOTION, second by C. Dingman, to APPROVE THE MINOR SITE PLAN FOR MARYANN & FRAN PARKHURST WITH THE CONDITION THAT THEY FULFILL THE FIRE CHIEF'S REQUIREMENTS. The motion CARRIED.

Mr. Favorite asked if the ice cream stand will be moved. Ms. Parkhurst assured him that she will notify the Board if they intend to move it.

The Notice of Decision and the plans were signed.

COMPLIANCE OF SUBDIVISION: ATTORNEY RICHARD Y. UCHIDA, SCOTT HOLMAN (ZAREMBA REP.), ERIN LAMBERT (NOBIS ENGINEERING), FRED SCHNEIDER (LAND OWNER)

Ms. Lambert produced the revised subdivision plans which now show the setbacks and notes about the variance, lot percentage by structure, soil types, and that the drainage is on page C-4.

C. Dingman made a MOTION, second by D. Paradis, to APPROVE THE SUBDIVISION OF ZAREMBA PROGRAM DEVELOPMENT LLC AS COMPLETED. The motion CARRIED and the plans and the mylar were signed.

SPECIAL USE PERMIT: ATTORNEY RICHARD Y. UCHIDA, SCOTT HOLMAN (ZAREMBA REP.), ERIN LAMBERT (NOBIS ENGINEERING)

The secretary read the application, the list of abutters notified, where the application was advertised and stated that there was a letter from the Conservation Commission and e-mails from the Health Officer and Assessing Office. The Board looked at the description that was submitted. State Assessor Dave Flynn is addressing the drainage. The Conservation Commission recommends that the Board grant the permit while considering pervious pavement, a maintenance plan, and that the debris be removed by hand in the wetland area.

Mr. Dingman asked if the proposed drainage plan now is different than the previous one the Board saw. Ms. Lambert stated that it is almost the same. Everything will be caught in the catch basins now; the over-flow will go to the DOT drainage pipe in a 10-year storm event. Mr. Paradis added that they are relocating the pipe and the drain to the pipe. Mr. Dingman was comfortable with this.

Atty. Uchida mentioned that there are some considerations and alluded to Ms. Lambert to explain. Ms. Lambert went over the change of reducing storm water, reducing the impervious cover, and keeping the wetlands buffer green. All debris will be removed by hand. They will need the heavy duty pavement to accommodate the heavy delivery truck and the volume of patrons but plan on doing pervious pavement where the 6 employee parking spaces will be located.

BRISTOL FIRE DEPARTMENT

85 Lake Street • Bristol, New Hampshire 03222
Telephone 744-2632 Fax 744-2533

SA To: Bristol Planning Board
From: Chief Steve Yannuzzi
Subj.: 90 Lake Street
Date: October 13, 2015

The memo is in reference to a Minor Site Plan Review of 90 Lake Street. The review is to convert retail space into 1750 square foot restaurant/function space. This change in use has changed the fire protection requirements for the property.

The occupancy is moving from a Business/ Mercantile to a New Assembly Occupancy in the fire codes. New assembly occupancy must meet the requirements outlined in NFPA 101 2009 Edition, Chapter 12. Section 12.3.5.1 of this code requires an automatic sprinkler system.

In a memo dated August 21, 2015 I outlined what has been done and what is required to bring the space up to fire code.

On October 13, 2015 I meet with the building owner to discuss what had to be done in order for the space to be used.

Here are the requirements that have to be met in order for the space to be used:

- 1) Illuminated exit signs need to be installed.
- 2) There will need to be an additional exit installed specifically for that space. This exit will need to be along the back wall of the space and be a minimum of 36" wide equipped with panic hardware and illuminated exit sign.
- 3) The main entry/exit door will need to have panic hardware installed and illuminated exit sign.
- 4) All exit doors will need to swing in the direction of travel for exiting the building.
- 5) The fire alarm system for the building will need to be inspected for correct operation.
- 6) No open flame devices to be used. (i.e. candles, pyrotechnics, etc.) Chaffing dishes and sterno cans are permitted.
- 7) Occupancy load in the new space will not be permitted to exceed 100 people not including staff. This will bring the aggregate total of the occupancy to 170 people.

PRESENTED 10/14/15

BRISTOL FIRE DEPARTMENT

85 Lake Street • Bristol, New Hampshire 03222

Telephone 744-2632 Fax 744-2533

Date: October 13, 2015

The memo is in reference to a Minor Site Plan Review of 90 Lake Street. The review is to convert retail space into 1750 square foot restaurant/function space. This change in use has changed the fire protection requirements for the property.

The occupancy is moving from a Business/ Mercantile to a New Assembly Occupancy in the fire codes. New assembly occupancy must meet the requirements outlined in NFPA 101 2009 Edition, Chapter 12. Section 12.3.5.1 of this code requires an automatic sprinkler system.

In a memo dated August 21, 2015 I outlined what has been done and what is required to bring the space up to fire code.

On October 13, 2015 I meet with the building owner to discuss what had to be done in order for the space to be used.

Here are the requirements that have to be met in order for the space to be used:

- 1) Illuminated exit signs need to be installed.
- 2) There will need to be an additional exit installed specifically for that space. This exit will need to be along the back wall of the space and be a minimum of 36" wide equipped with panic hardware and illuminated exit sign.
- 3) The main entry/exit door will need to have panic hardware installed and illuminated exit sign.
- 4) All exit doors will need to swing in the direction of travel for exiting the building.
- 5) The fire alarm system for the building will need to be inspected for correct operation.
- 6) No open flame devices to be used. (i.e. candles, pyrotechnics, etc.) Chaffing dishes and sterno cans are permitted.
- 7) Occupancy load in the new space will not be permitted to exceed 100 people not including staff. This will bring the aggregate total of the occupancy to 170 people.

- 8) Installation of an automatic sprinkler system within the new space.

Sprinkler System Requirements

The installation of an automatic sprinkler system is costly. However current code requires that this space have an automatic sprinkler system. I understand that to generate funding for the sprinkler system it is important to be able to use the space to generate the capital required for the installation of the sprinkler system.

Therefore I will permit the use of the space for 6 months according to the following timeline:

- 1) Requirements 1 thru 7 above will need to be met before issuance of an assembly permit.
- 2) Sprinkler plans for installation of the system within 3 months of this memo. December 14, 2015
- 3) Installation of the sprinkler system by March 14, 2016.

If this timeline is not adhered to the assembly permit will be revoked and the space will not be permitted to be used. There will be no extensions or exceptions to these requirements.

PLANNING BOARD
September 9, 2015

APPROVED:

AGENDA: 15MSPR MINOR SITE PLAN REVIEW: MARYANN & FRAN
PARKHURST, 90 Lake St., #113-041
15SUB03 SUBDIVISION & 15SPR01 SITE PLAN: ZAREMBA PROGRAM
DEVELOPMENT LLC/DOLLAR GENERAL, 215 Lake St., #112-001

ATTEND: Denice DeStefano (Chairman), Dan Paradis (Vice Chair), Paul Manganiello
(Sel. Rep.), Debbie Denning, Clay Dingman, Steve Favorite, Betty Seeler

ABSENT: -----

OTHER: The Parkhurst family, the Zaremba representatives, Fred Schneider, Steve Bleiler

The meeting opened at 7:00 p.m. with a quorum.

15MSPR MINOR SITE PLAN REVIEW: Maryann & Fran Parkhurst

The secretary read the application, the abutters notified, and where the hearing was advertised. She added that there were no telephone calls nor written responses received and that there are comments from the Assessor's office and the Fire Department.

Ms. DeStefano explained that this is for a 68 seat function room and a seasonal ice cream stand. The Board members were given large copies of the new plan, of the Mullen's function room, the Creamery, and the original signed site plan.

The checklist was addressed: #6, parking requirements: Ms. DeStefano mentioned that the parking calculations should be on the plan (the previous ones were still there) and asked how the ones listed on a separate sheet were calculated. A discussion followed as Ms. Parkhurst said that she subtracted the square feet from the retail and got 25 spots. Mr. Favorite asked if this includes the ice cream stand. Ms. Parkhurst stated that this is just take-out so she did not think that parking was needed. Mr. Favorite asked why the signed 2012 plan's parking was never implemented and Mr. Parkhurst stated that it hasn't been needed. Ms. Parkhurst added that they will remove one trailer for the ice cream stand and that they need a total of 74 spaces. Ms. DeStefano asked if the function room would be used day in and day out. Ms. Parkhurst answered that it will only be used as a function room; probably weekends and occasionally during the week. Mrs. Parkhurst stated that the seats and tables would stay up all the time. As this puts the function room in a different category, the Board calculated the required parking spaces which would be a total of 79: Restaurant 25, Retail 20, storage 5, office 4, and Mullen's room 25. Ms. Parkhurst then asked for a 25% reduction which brought it to 64 as covered on her new plan. Ms. DeStefano noted that the Creamery had not been included (12) and reducing

-2-
Planning Bd. Minutes
9/9/15

PARKHURST MINOR SITE PLAN continued:

this 25% would require an additional 9 spaces for a total of 73. Ms. Parkhurst then said that they will remove all of the trailers and supply this. Mr. Paradis noted that only 66 spaces are shown on the new plan right now.

#7 abutters listed on plan: it was noted that some are missing.

Ms. DeStefano then asked the time of business. Ms. Parkhurst stated that the restaurant is 11:00 to 9:00 Monday and Tuesday, 11:00-9:30 Wednesday and Thursday, and 11:00-10:00 Friday, Saturday, and Sunday. The creamery will be 12:00 to 7:00 and the bar/function room will have various hours (2 ½ to 3 hours, preparation and 4:00-8:00 for functions).

Ms. DeStefano read the Fire Chief's letter and the e-mail from the Assessing Assistant: Chief Yannuzzi is requesting illuminated Exit signs, emergency lighting, panic hardware on exit doors, a fire alarm system, and installation of an automatic sprinkler system. The Assessing Assistant mentioned that renovations over \$2,000 will need a permit and the creamery will need State approvals for the separate space and provide information on how food is stored, utensils cleaned, etc. Ms. Parkhurst stated that she has reduced the seating to 75 so would no longer need the sprinkler system.

Mr. Favorite stated that there is much needed to change the plan. He noted the heading still has the old calculations, the abutters that are missing, the new parking calculations, and update of notes.

E. Seeler made a MOTION, second by D. Denning, to CONTINUED THIS HEARING TO OCTOBER 14, 2015 AT 7:00P.M. Ms. Parkhurst requested that she be allowed to re-do the plan and get back this evening so the Board could approve with the condition of a new letter from the Fire Chief. She added that they have a birthday for her daughter coming up.; The Board determined that there is too much missing and they need to hear from the Fire Chief first. The motion CARRIED.

15SUB03 SUBDIVISION & 15SPR01 SITE PLAN REVIEW: ZAREMBA PROGRAM DEVELOPMENT LLC/DOLLAR GENERAL - Richard Uchida, (Attorney), Erin Lambert (Engineer), Scott Holman (Development Manager)

Ms. DeStefano explained that there are 3 hearings to be heard in regard to this case. The Special Use Permit must allow 30 days for the Conservation Commission and the Health Officer to respond. Therefore, it cannot be heard until Oct. 14th. Ms. DeStefano added that she will not continue the hearing beyond 9:00 or 9:30pm as it gets too late for good decisions to be made. We shall begin tonight with the Subdivision and may not get to the Site Plan until the Oct. 14th meeting, she added.

BRISTOL FIRE DEPARTMENT

85 Lake Street • Bristol, New Hampshire 03222
Telephone 744-2632 Fax 744-2533

SY
To: Bristol Planning Board
From: Chief Steve Yannuzzi
Subj.: 90 Lake Street
Date: August 21, 2015

The memo is in reference to a Minor Site Plan Review of 90 Lake Street. The review is to convert retail space into restaurant/function space. This change in use has changed the fire protection requirements for the property.

The occupancy is moving from a Business/ Mercantile to a New Assembly Occupancy in the fire codes. New assembly occupancy must meet the requirements outlined in NFPA 101 2009 Edition, Chapter 12. Section 12.3.5.1 of this code requires an automatic sprinkler system.

On March 13, 2015 a temporary assembly occupancy permit was issued to Fran Parkhurst to use the new space known as the Mullen's Room for St. Patrick Day's functions. This permit was issued from March 13-18, 2015. The permit was issued with an occupancy load of 150 people. At that time a discussion was held as to fire code requirements for the space in order to allow it to be used in the future. These requirements included but not limited to:

- 1) Illuminated Exit Signs
- 2) Emergency Lighting
- 3) Panic hardware on exit doors.
- 4) Fire Alarm System
- 5) Installation of an automatic sprinkler system.

On May 21-27, 2015 another temporary permit was issued to use the space, again the owner was reminded of the fire code requirements for the space.

This space is not permitted to be used until all fire code requirements are met. No further assembly occupancy permits will be issued for this space.

Jan Laferriere
RE: Department Head feedback

Subject:

Here is the following Department Head feedback for upcoming meetings:

1. **Maryann Parkhurst Site Plan Application** – 90 Lake Street: I have given you the letter from the Fire Chief and he plans to be at the meeting. If they are doing any additional renovations, they should keep the cost in mind (such as the \$2000 renovation limit) and change of use, as the ice cream service is really a change of use if it is still in the building out back. Also if the ice cream is being served not as part of the restaurant, then they are going to be required to have State approvals for the separate space and provide information on how food is stored, utensils are cleaned etc.
2. **Zaremba Group Special Use Permit** – 215 Lake Street: This reminder can be addressed during Site Plan or during the Land Use Permit process, but is good to make them aware that they are going to need to sprinkler the building and have fire detection installed. This has the potential to affect their drainage or piping into the building.
3. **Capello Special Exception** – 15 Browns Beach Road: This reminder can be addressed during the Land Use Permit process, but it is good to make them aware that they are going to need to have hard wired smoke detectors in each level and sleeping areas and also discuss the meter pit during construction.

I think this catches me up. Thanks,

Christina Goodwin

MaryAnn Parkhurst/Fran Parkhurst
90 Lake Street
Bristol, NH 03222

July 17, 2015

Dear MaryAnn;

As we seem to still have some miscommunication happening and I have not heard from you today, perhaps I can explain clearer here.

In order for me to schedule you for a hearing, I must first have a complete application which must include the application, fees, abutters list (signed by the Land Use/Assessing Office), all of which I have received, but also a completed checklist and a Site plan that contains all that is on the checklist. I need 4 large copies of the **Site plan** (as well as 9 small copies, 8 ½ x 11 or 11 x 17). You may use the previously approved Site Plan but must remove the signatures from the Signature block and replace the 1450 sq. ft. retail space with your addition use and place the Creamery in the space planned for. Any changes in the parking requirement should have a separate sheet with the calculations now required as well as to list the new requirement on the plan. Any waiver requests asked for on the checklist must be submitted in writing with the reasons for them.

As we have now missed the August hearing deadline, the next hearing date is September 9 with a submission date of August 14 at noon. If you have any further questions, I am available every Friday from 8:00am – 4:00pm and directions may be found on the town web site, Subdivision/Site Plan Regulations.

I hope this helps.

Sincerely,

Jan Laferriere
Recording Secretary, Planning Board

Subject: MINOR SITE PLAN - PARKHURST PLAZA

Good morning;

I want to update all of you as to what has been going on with MaryAnn's Minor Site Plan. She came in with an application, fees, and abutters list the week after I needed to get her scheduled for a July hearing.

I explained that I would not be able to schedule her until the August hearing date of Aug. 12 but would need her checklist plus small and large plans of her amended site. As long as I received them by the application date of noon on 7/17/15, I can still schedule her for August. Last Friday, 7/10, I called MaryAnn to remind her of what I needed by this Friday (7/17). When I came in this morning, Mary Richardson gave me the plans that MaryAnn left with her.

She has a few small copies and some large copies of Kathleen's Cottage and expansion, same of The Creamery (not the site). For a Site plan, she has copies of the previously approved Site Plan (which still has the signature block with the original signatures, and no changes to either Kathleen's cottage or where the Creamery is to be located). There is no checklist. I have a call in to her (I tried to reach her at each of the 2 numbers she has listed on the application) and left a message explaining that I still cannot schedule her as the application is still incomplete. If I do not have the missing items by noon today, it will now be September before we can hear her case.

I am writing to you today so that you will all know what has been going on, in case you are approached about this case.

Have a nice day.
Jan

Christina Goodwin

Subject: Document1
Attachments: Document1.docx

For your information, I have placed this in the mail late this afternoon (7/17/15). As of now, both the additional room for Kathleen's Cottage and the Creamery should not be used.
Good luck!

Jan

With that said, it is not the intent of the Town to fine you. We hope you can understand and appreciate the fact that we need to apply the Zoning Ordinance fairly in all instances. While we have some discretion, ultimately you as the business/property owner have responsibility to follow through on the direction you have received from the Planning Board. We wish you a successful event on both days. If you have any additional questions regarding this information please contact the Land Use Office, Monday - Friday.

Thank you,

A handwritten signature in cursive script that reads "Christina".

Mary Anne Parkhurst
Kathleen's Cottage
90 Lake Street
Bristol, NH 03222

Reference map/lot #113-041

Ms. Parkhurst,

This letter addresses your recent request to hold two additional events in the space converted in March 2015. At that time, the Town granted permission through March 18, and you were advised that you would need to attend a Preliminary Conceptual Consultation (PCC) with the Planning Board to determine the steps required for any additional use of that space. On the April 22 Planning Board meeting, the PCC advised you that a Minor Site Plan was required.

On Friday, May 15, you met with Jan Laferriere, who reviewed your application and extended the deadline for submission for that day until 4:00pm. Unfortunately, you were not able to meet that deadline. The Land Use Office has reviewed your request to use the additional space and has **GRANTED permission for May 25, 2015 and May 30, 2015 ONLY. No additional use of this space outside of these dates is allowed until you have applied for and received approval on the Minor Site Plan.**

Please note that any use of this space outside of the two approved dates listed above, will be considered a violation of the Zoning Ordinance and Site Plan Regulations and shall require the Town to issue fines. As stated in RSA 676:17 *"...and shall be subject to a civil penalty of \$275 for the first offense, and \$550 for subsequent offenses, for each day that such violation is found to continue after the conviction date or after the date on which the violator receives written notice from the municipality that the violator is in violation, whichever is earlier. Each day that a violation continues shall be a separate offense."* **This letter serves as that notice and no further extensions or exceptions will be made.**

that said, it is not the intent of the Town to fine you. We hope you can understand and appreciate the fact that we need to apply the Zoning Ordinance fairly in all instances. While we have some discretion, ultimately you as the business/property owner have responsibility to follow through on the direction you have received from the Planning Board. We wish you a successful event on both days. If you have any additional questions regarding this information please contact the Land Use Office, Monday - Friday.

Thank you,

A handwritten signature in cursive script that reads "Christina".

Re: Minor Site Plan Application

Mr. & Mrs. Parkhurst,

Per your meeting with the Bristol Planning Board on June 13, 2012, it was determined that a Minor Site Plan Application would be required for the construction to the back of the existing Parkhurst building. As of the date of this letter, you have not fulfilled that requirement. When you last spoke with Christina Goodwin, you said you would be compiling all your information and coming in to file in November, which did not happen. The original approved permit for this construction was made September 16, 2011.

At this time, fines may be levied, pursuant to RSA 676:17, for non-conformance due to the change of your original approved plans and your failure to attend Minor Site Plan. However, this is not our intent, and we would much rather you file and attend the next Minor Site Plan meeting without further delay. The application deadline for a January 9, 2013 hearing is December 14, 2012.

Should you have any questions regarding this letter contact the offices, Monday - Friday, 8:00am to 4:30pm. We thank you in advance for your cooperation.

Sincerely,

Al DeFeo
Land use / Health Officer

Hello there,

FYI – I called Parkhurst today and spoke to Fran. Long story short, she got new hearing aids, which were the reason for her delay. She will be compiling everything and coming in to file in November.

I will follow this with Jan.

Thanks,

*Christina Goodwin

APPROVALS

1. Bristol Fire Department (85 Lake Street, 744-2632)
 Commercial / Multi-Family Dwellings: Approval required for all new construction, change of use, renovation or expansion.
 Permit is required to install oil burning equipment.
 One or Two Family Dwellings: A Permit is required to install oil burning heating equipment.

Notes: Per Fire Chief - no approval required

Fire Chief's Signature: Cum Date: 9/16/11

2. Bristol Water & Sewer Department (230 Lake Street, 744-8411)
 Approval is required for all projects on properties served by Town Water or Sewer.

Notes: Per W/S Superintendent no approval required

Superintendent's Signature: Cum Date: 9/16/11

3. Private Septic approval from the NH Department of Environmental Services (271-3503)
 If Town sewer is not required, approval is required from the NH DES For all new construction, change of use, and renovations that increase the number of bedrooms or living space.

Construction Approval Number: N/A Date: _____
 Size and/or type of system: _____

4. Bristol Highway Department (100 Ayers Island Road, 744-2441)
 Approval is required for all projects that require connection to a town road.

Notes: N/A
 Highway Superintendent's Signature: _____ Date: _____

State of NH Department of Transportation approval is required for connection to a state maintained road.

NH DOT Permit Number: N/A Date: _____

5. New Hampshire Energy Code (www.puc.nh.gov , 271-2431)
 NH Energy Code Approval is required if you plan to:
 Build a new home/building or addition with any provision at all for fossil or electric heat
 Winterize a seasonal home or part of an existing structure, such as finishing a room over a garage
 Construct an addition with more than 150 square feet of total floor space
 Construct a Sunroom
 Renovate a portion of your existing home/building

If the structure has been designed by a NH architect or engineer, he or she has the responsibility of certifying your construction plans and submitting a letter to the State of NH Public Utilities Commission (PUC) and the town stating that the structure meets the code requirements. If he or she has done so, you do not have to submit the application to PUC. See www.puc.state.nh.us for application and information.

Approval Number: N/A Date: _____

6. **Bristol Historic District Commission (230 Lake Street, 744-3354)**

For properties within the Historic Overlay District, a Certificate of Approval is required from the Historic District Commission for repair, alteration, construction, relocation or demolition of any structure or sign within the Historic District.

Certificate of Approval Number: N/A Date: _____

7. **NH DES Wetlands Bureau (271-2147)**

A Wetlands Permit is required for:
Installing a dock or any other type of shoreline structure
Impacting the bank of any water body
Adding sand to a beach or constructing a new beach
Dredge, fill, or construction impacting any wetland

Permit Number: N/A Date: _____

8. The Asbestos NESHAP work practice standards established by the EPA apply to all renovations and demolitions of facilities that contain at least 260 linear feet of regulated asbestos-containing materials (RACM) on pipes, or 160 square feet of regulated asbestos-containing materials on other facility components, or at least 35 cubic feet off facility components where the amount of RACM previously removed from pipes and other facility components could not be measured before stripping. All demolitions must notify the appropriate regulatory agency, even if no asbestos is present at the site, and all demolitions and renovations are subject to the Asbestos NESHAP insofar as owners and operators must determine if and how much asbestos is present at the site.

NH DES Asbestos Management and Control Program (271-1370) requires a thorough inspection conducted prior to any renovation or demolition for asbestos containing materials. If asbestos is identified it must be removed by a licensed abatement contractor and disposed of at an approved facility. Prior to removing asbestos, you must file written notification letter with the Town Health Officer and NH DES. Lists of accredited asbestos inspectors, licensed abatement contractors, and approved disposal facilities can be obtained by calling NH DES at 271-1370, or on-line at www.des.nh.gov/ard/asbestos.htm

PARKHURST & COMPANY INC.
90 LAKE STREET
BRISTOL, N.H. 03222

A technical diagram of a roof layout. It consists of a large rectangle representing the 'EXISTING ROOF' and a smaller trapezoidal shape attached to its bottom edge representing the 'NEW ROOF'. The trapezoid has a top width of 100 feet and a bottom width of 90 feet. The labels 'EXISTING ROOF' and 'NEW ROOF' are placed inside their respective shapes. The dimensions '100'' and '90'' are written near the top and bottom edges of the trapezoid respectively.

RE: Selling of Livestock at 90 Lake Street, Map 113 Lot 041

Dear Ms. Parkhurst,

In response to your request for zoning information relative to your business located at the above captioned property, please be advised of the following:

- The property is located in the VC, Village Commercial Zoning District.
- The use of record for the building is for the retail sale and storage of dry goods, feeds, farm/landscaping supplies, pet supplies, clothing, hardware, plants, growing vegetables, small livestock, and birds. Larger livestock that is not maintained for more than twenty-four hours on the property is also sold from this property. There is also a restaurant separate from this use, located in the same structure, separated by a fire separation. Both are permitted uses in the district.
- No animals are penned or housed outside the building.
- The use has been in existence for more than twenty years and has received site plan approval from the Planning Board.

Zoning regulations were adopted by the town in 1985. If you have any questions regarding this information, please do not hesitate to contact me.

Very truly yours,

Michelle T. Bonsteel
Land Use Enforcement Officer

Bristol

Phone Number 744-8044

Establishment Number: 5697

Dear Maryann Parkhurst:

Please contact Food Protection Section at least seven days prior to the date you wish to be inspected by calling John Seiferth, your inspector at 603-271-4589.

The above plans were reviewed today. Contact the town's building inspector in regards to local requirements. In order to be in compliance with He-P 2300, "New Hampshire Rules for the Sanitary Production and Distribution of Food" (The Food Rules), the following items shall be adhered to. Some of these items may already be planned but they are listed here, as they did not appear on the plans submitted.

1. A licensed plumber shall do all plumbing. Please contact the NH Plumbers Board at telephone no. 603-271-3267 for an inspection.
2. All Plumbing shall be sized, installed and maintained according to the provisions of the plumbing portions of the State of NH Building Code, as authorized by RSA 155-A.
3. Install an additional hand-washing sink at the 3-bay sink area/salad unit-prep table area.
4. Install a separate food preparation sink. The sink shall be certified or classified for sanitation by an American National Standards Institute (ANSI) accredited certification program/National Sanitation Foundation (NSF). **Please note: The sink shall be of seamless design (rounded corners) and shall be plumbed with an indirect waste line that discharge into the waste water system by means of an air gap.**

*called & left a message that
rest. opened over weekend.
B-O-H approved? 1-12-10*

*restaurant out of business
by 2-01-10*

5. All refrigerators shall be commercial models and be certified or classified for sanitation **for its intended purpose** by an American National Standards Institute (ANSI) accredited certification program or the National Sanitation Foundation (NSF).
6. Walk-in refrigerator and freezer units shall **not** contain any wooden surfaces including the floor, walls, ceiling, shelving, door, and doorframe. Shelving in walk-in units shall not be less than six inches from the floor.
7. The drains originating from the walk-in refrigeration/freezer coils shall be plumbed with an indirect waste line that discharge into the waste water system by means of an air gap.
8. Install a back siphonage device on the utility (mop) sink hose bibb when a hose is attached. **NOTE: All chemical feed systems shall be installed with a dedicated water line and a separate shut off valve. "Y" valves (splitters) at the mop sink are not allowed in food service establishments.**
9. If the dishwashing machine is hot water sanitizing, a booster heater may be required to achieve the sanitizing temperatures required by He-P 2310.03 and the dishwashing machine shall be plumbed with an indirect waste line that discharge into the waste water system by means of an air gap.
10. Floors, walls, ceilings, and shelving in all food preparation and service areas and restrooms shall be smooth, durable, non-absorbent, and easily cleanable.
11. Install plastic or vinyl coving at the juncture of the floor and walls in all food preparation, utensil washing and service areas, and restrooms.
12. A sign requiring "hand washing after using the restroom" shall be placed at each hand washing sink within the establishment where it can be readily seen and read by employees.
13. **Install (2) restrooms for patrons.** The restrooms shall be provided with a hand-washing sink, soap, paper towels or hand-drying device, mechanical ventilation, and self-closing door. Restrooms used by female patrons or employees require a covered waste receptacle. ***Note – Restrooms shall be located so patrons do not have to pass through food preparation areas to gain access to them.**
14. Storage shelving shall not be less than six inches from the floor.
15. Shield and cap the lights in all food preparation, utensil washing, storage, and service areas and areas with open food.
16. Provide screening for all doors and windows that are to be kept open. All screen doors shall be self-closing.
17. Outside garbage cans or dumpsters shall be set on a cleanable surface such as reinforced concrete or rolled asphalt and they shall be kept closed.

The Food Protection Section is available to answer any questions you may have. A pre-opening inspection will not be made until the above items have been completed. Upon inspection of your establishment, the inspector from the Food Protection Section has the final approval of your plan review. Your food service establishment shall not open until a Food Service License has been issued.

Sincerely,

Rhonda Thomas
NH Food Protection Section

Elizabeth A. Sullivan
Member, Bristol Planning Board

Date: 6/24/09

CONDITIONS FOR PARKHURST SITE PLAN APPROVAL BASED ON PLANNING
BOARD MEETING OF JUNE 10 AND JUNE 24, 2009

1. Total occupancy of the restaurant (excluding the patio) shall not exceed a total of 78 persons (62 patrons plus 16 employees). Occupancy of the patio is limited to 12 patrons unless indoor seating is reduced on a one-for-one basis. In no event shall the total patio occupancy (patrons plus employees) exceed 40.
2. All conditions specified by the Fire Chief in his memos of April 17, 2009, May 26, 2009 and June 8, 2009 must be complied with unless modified by the Chief in writing.
3. All requirements specified by Jeff Chartier, Water/Sewer Superintendent, shall be complied with.
4. Fence adjacent to the north driveway shall be adjusted so adequate site lines are maintained between drivers exiting the Parkhurst lot and pedestrians/drivers passing on Lake Street. Final design must be approved by Code Enforcement Officer before fence is constructed.
5. North driveway to be covered with pea stone or similar material for a distance of at least 75 ft. back from the sidewalk. Curb cut and sidewalk match to be reconstructed to standards specified by Mark Bucklin, Highway Supervisor, in his letter of June 10, 2009.
6. North driveway must provide ready access for emergency vehicles. Parking adjacent to the northern boundary must not restrict this access.
7. No live music is allowed after 10:00 PM Sunday through Thursday and after 11:00 PM Fridays and Saturdays unless permission is obtained from the Board of Selectmen for a special event.
8. Sound equipment and/or loudspeakers located outdoors or in a tent are subject to the noise ordinance.
9. Any tents erected on the site for special occasions must not remain up for longer than three days. Any such tents shall meet all requirements specified by the Fire Chief in his memo of May 26, 2009.
10. Parking lot design must meet ADA standards. (For lots of 51 to 75 cars, 1 van-accessible space and 2 accessible spaces must be provided. Van accessible = 96" aisle; accessible = 60" aisle, which may be shared by two spaces.)
11. Sufficient parking, as determined by the Chief of Police, shall be secured for special events.
12. Lighting shall comport with locations described by Mr. Parkhurst in the Planning Board minutes of 6.24.09. All lighting shall be downward directed and not shine on abutting properties.

Bristol Fire Department

603-744-2632**

To: Michelle Bonsteel, Land Use Officer
Planning Board
From: Steve Yannuzzi, Fire Chief
Subj.: Kathleen's Cottage, Lot 113 Map 041
Date: June 8, 2009

On this date I met with Mary Ann of Kathleen's Cottage on the proposed seating and occupancy for her establishment. I visited the location with her at took interior measurements of the rooms to determine occupancy load. What follows are the findings and recommendations.

Room #1 Main Dining Area

This room net square footage is 323 sq. ft. The room will also have 15' 7" benches at each end of the room. The interior measurements are as follows:

15' 7" by 20' 6" total 323 sq. ft.

The occupancy load total for this room is as follows:

323 sq. ft net area/15	21
187" of bench/18	10
187" of bench/18	10
Total for room 1	41

Room #2 Small Seating Area

This room net square footage is 72 sq. ft. The room will have 237" of bench seating along the walls of the room. The interior measurements are as follows:

9' 6" by 7' 5" total 72 sq. ft.

The occupancy load total for this room is as follows:

72 sq. ft. net area/15	5
237" of bench/18	13
Total for room 2	18

Bar

The room net square footage is 158 sq. ft. The interior measurements are as follows:

12' 2" by 13' total 158 sq. ft.

The occupancy load total for this room is as follows:

158 sq. ft. net area/15 10

Balcony

The room net square footage is 74 sq. ft. The interior measurements are as follows:

18' 6" by 4' total 74 sq. ft.

The occupancy load total for this room is as follows:

74 sq. ft. net area/15 5

Kitchen

The room square footage is 378 sq. ft. The interior measurements for this room are as follows:

13' 7" by 27' 6" total 378 sq. ft.

The occupancy load total for this room is as follows:

378 sq. ft./100 4

The total occupancy load for the building is as follows:

Room #1 41

Room #2 18

Bar 10

Balcony 5

Kitchen 4

Building Total 78

Patio

The total square footage for the patio is 608 Sq. ft. The occupancy for the patio is as follows:

608 square footage/15 40

Patio Total 40

The patio will be required to have separate exiting that does not require exiting through the building.

The building will still require the following:

- 1) All exit doors will be required to swing outward.
- 2) Emergency lighting will be required.
- 3) A supervised fire alarm system will be required.

If you have any questions contact me.

MEMORANDUM:

To: Chairman Dan Paradis and Members of the Planning Board

From: Michelle T. Bonsteel, Land Use Enforcement Officer

RE: Parkhurst Application

Date: June 9th, 2009

Please be advised that I visited the property on today's date. With me was Kelly Stafford. We were met later by the Chief of Police, John Clark.

Ray Parkhurst escorted Kelly and I to the second floor. The space is accessible through the back work room. At the top of the stairs is a large storage room.

The finished space has a rated door to the first room. This room is the work space (there are two desks and filing cabinets), which is divided by filing cabinets from the full kitchen. There is a smaller room behind the first room that is used by Mr. Parkhurst as his office. Adjacent to that is a full bathroom. There is no indication that the space is being used for a residential use, although it does contain all the elements for a one bedroom residential apartment, sans a fire rated exit to grade.

Outside, where we were met by the Police Chief, we examined the proposed fence location. It was determined that the best solution would be to cut a diagonal across the corner adjacent to the driveway/sidewalk intersection. The corner post would be eliminated at the intersection. This would permit an unobstructed view to the sidewalk for any vehicle exiting by way of the driveway. It should be noted that, even with a three foot high fence at the corner, the driveway is at a lower grade than the patio. As a result, the site line at the intersection would be inhibited.

I was also provided with a memorandum from the Fire Chief, who forwarded it to the Recording Secretary for distribution. His memo clarifies the occupancy limits for the interior spaces. The Fire Chief measured every space and calculated the occupancy based on the actual dimensions of the spaces. Employees are included in the final occupancy loads.

Jeff Chartier provided a letter to the owner of the property on today's date regarding the sewer/water application and hook up fees for the new use. A copy was forwarded to the Recording Secretary for distribution.

With regard to the hours for live music, I have been advised that the Mill Restaurant had "open mike" with acoustic instruments no later than 10PM. The Police Chief has advised me that he will meet with Mary Ann Parkhurst to discuss her hours of operation that include live music, her plans for the annual festival and whether or not she intends to

have a Tiki Bar, as she did at Cu Na Mara. All activities will be subject to the Noise Ordinance.

If a Tiki Bar and/or an annual festival is considered, the board may consider deductions from the calculated number of parking spaces for the area affected by the Tiki Bar and/or annual festival tent(s). The board may wish to request that the owner obtain written permission from neighboring properties for parking during special events to the board for its consideration. Please keep in mind the Fire Chief's concerns about tents, which he provided to you in a previous memorandum.

I hope this has been of some help to you. If you have any other questions or concerns, please let me know.

LAKE ST.

113-041

MEMORANDUM:

To: Chairman Paradis and Members of the Planning Board

From: Michelle T. Bonsteel, Land Use Enforcement Officer

RE: Parkhurst Application

Date: May 27th, 2009

- ✓ Please be advised that the Land Use Office has received several anonymous calls alleging the second floor of the existing store is a two bedroom apartment. There is no record of a land use permit to convert the office and storage room of record to a residence.
- ✓ In addition, there is no record in the land use files for Planning Board approval for the conversion of use on the second floor of the building. To be considered by you is parking requirements for the apartment in addition to the parking requirements for the existing and proposed businesses. If there is a residence, the entire building may be required to be fire sprinklered. An inspection should be arranged to ascertain the use of this floor.
- ✓ In your packet for the last meeting, you received a copy of the DOT permit for the driveway cut on the northerly side of the building. Please note that the driveway may never have been constructed in accordance with DOT regulations. (As a result, this driveway may not be approved by DOT and the applicant may need to submit a new application to that agency, as a result.
- ✓ With regard to said driveway, the installation of a six foot fence will seriously diminish site lines for vehicular and pedestrian traffic exiting the property onto Lake Street. The fence law recently changed to reflect the concerns of site lines and visibility at intersections. Although this is not a street to street intersection, the concerns are genuine as they are associated with commercial uses.
- ✓ Finally, it has been brought to my attention that the applicant is considering live entertainment, both inside and outside the building. The floor plan does not reflect a band area/dance floor and the site plan does not reflect a tent or concert area. There is no provision for parking if a portion of the exterior of the premises is utilized for a concert. Consideration should also be made to the residences that are located on North Main Street, Lake Street and Union Street which would be potentially impacted by noise generated by live music, inside or outside the building, and the hours associated with live concerts.

Please see the accompanying memo from the Fire Chief.

Bristol Fire Department

85 Lake Street Bristol, New Hampshire 03222

603-744-2632

To: Michelle Bonsteel, Bristol Land Use Officer
From: Chief Steve Yannuzzi
Subj.: 90 Lake Street, Map 113 Lot 041
Date: May 26, 2009

Please see attached memo dated April 17, 2009 that outlines the requirements of the conversion to a place of assembly.

The owner of the property needs to be clear in understanding that removal of any seating inside the building to make use of the space as a dance floor or band area will cause an increase in the occupancy load for the building. This increase will trigger the requirement for a sprinkler system to be installed in this building.

There has also been discussion of having outdoor entertainment. If a tent is erected for this use the following requirements will need to be met:

- 1) NFPA 101, 11.11.1.2 Tents shall be permitted only on a temporary basis.
- 2) NFPA 101, 11.11.1.3 Tents shall be erected to cover not more than 75% of the premises.
- 3) NFPA 101, 11.11.2.1 All tent fabric shall be flame resistant.
- 4) A certificate of flame resistance shall be provided.
- 5) NFPA 101, 11.11.3.1, There shall be a minimum of 120 in. between stake lines.
- 6) NFPA 101, 11.11.3.5, The placement of tents relative to other structures shall be at the discretion of the Bristol Fire Department, with consideration given to occupancy, use, opening, exposure, and other similar hazards.
- 7) NFPA 101, 11.11.4.1, The ground enclosed by any tent, and the ground for a reasonable distance but for not less than 120 in. outside of such tent, shall be cleared of all flammable or combustible material or vegetation that is not used for necessary support equipment. The clearing work shall be done to the satisfaction of the Bristol Fire Department prior to erection of such a tent. The premises shall be kept free from such flammable or combustible materials during the period for which the premises are used by the public.

MEMORANDUM:

To: Chairman Paradis and Members of the Planning Board

From: Michelle T. Bonsteel, Land Use Enforcement Officer

RE: May, 2009 Planning Board Applications

Date: April 21st, 2009

Attached are the responses from the various Department heads concerning the applications before the Board.

Please allow me to provide my comments and a brief synopsis of their comments for your consideration.

Freundenberg: (green)

The applicant has filed an amendment to their existing site plan to allow the construction of a new warehouse at the rear of the factory building. The building will be sprinklered. The warehouse is needed to accommodate materials from the plant closing in Franklin. Sixty employees will be relocated from the Franklin facility to Bristol's facility.

The proposed building meets all zoning setbacks and is a permitted use in the zone. The applicant is providing a Wetland's Soils Scientist report as a small stream and possible pond are in the general area of the construction. The area in question is not delineated on the Wetlands Overlay Map.

The staff supports the application, as proposed.

Kathleen's Cottage/Parkhurst: (yellow)

The applicant has filed an amendment to their existing site plan to allow the conversion of a portion of retail space in the existing building, to be converted to a public assembly (restaurant) use.

Please note:

- The submitted floor plan is not truly reflective of the applicant's changes to the building. In a discussion with the Fire Chief, the applicant stated that a door would be maintained between the retail space and the restaurant space. It is closed off in the plan.
- The submitted proposed site plan is not reflective of existing conditions. There is no indication of the existing outside storage and parking spaces are not delineated in the lots.

- The restaurant must provide accessible parking, bathroom facilities and a ramp to the entrance, compliant with ADA regulations.
- There is no provision for live entertainment (stage) within the existing proposed floor plan.

The staff has provided several comments and recommendations.

Exterior:

- Provide a paved apron and gravel the north driveway to prevent mud from tracking onto Lake Street.
- The applicant must file an application for water and sewer service.
- The Fire Chief has provided a detailed memorandum, attached.
- The Highway Superintendant has provided a copy of the DOT permit for the north driveway, attached.

Voebel/16 Pleasant Street: (blue)

The applicant is requesting a conversion of use from mixed use (commercial and residential) to all residential. There is a letter to the applicant dated April 15th, 2009 (attached) outlining the deficiencies in the application. Please note the conflict between town records and the number of residential units in the application. There has been no response from the applicant, to date.

The Fire Department has provided a memorandum (attached).

The staff has raised the issue of parking. As you are aware, there is a provision in the ordinance that prescribes the procedure to obtain off premises parking for residential uses in the downtown. Depending on the number of bedrooms approved, the applicant will be required to obtain permits annually (January 1st) from the Board of Selectmen. Designated spaces for permit parking, only, will need to be set aside in the Library (former gas station) parking lot. Mark Bucklin has expressed his concern that he will not be able to adequately plow the lot if the tenants do not move their cars during snow events or for general maintenance. The staff does not support assigning street spaces. It is recommended that the tenants' telephone numbers be provided to the Police Department and Highway Department for emergency situations.

There was also a question regarding the timing of the request for permit parking for the landlord to the Board of Selectmen. It is assumed that the permit parking fees, once determined, will be prorated to December 31st, 2009, renewable every January 1st, thereafter. As this is the first time the ordinance has been implemented, please recommend a timetable for the landlord to apply to the Selectmen and advise.

If you have any questions or need additional information, please let me know.

From: Chief Steve Yannuzzi
Subj.: 90 Lake Street, Map 113 Lot 041
Date: April 17, 2009

After reviewing the request for change of use the following issues will need to be addressed:

- 1) The total allowable occupancy of the assembly area is 48 people.
This is based on a net square footage assembly total of 722 sq. ft.
- 2) The square footage of the kitchen area is 370 sq. ft. allowing for an occupancy load of 4 people.
- 3) **The total allowed occupancy for the establishment is 52 people.**
- 4) The front door (door 1 on drawing) is 36" wide with three steps down to grade this door can accommodate 120 people.
- 5) The Lake Street door (door 2 on drawing) is 44" wide and exits to grade this door can accommodate 220 people.
- 6) The door off the kitchen (door 3 on drawing) is 36" wide with three steps down to grade this door can accommodate 120 people. **This door is not permitted to be a main exit for the public, because the public egress cannot go through a kitchen area.**
- 7) The exits are adequate for the occupancy load of 52 people.
- 8) **The gross square footage of the assembly area is 840 sq. ft. without any tables and chairs the occupancy load would be 168**

Summary of Application for Site Plan Review

You will need a Site Plan Review Application, Application checklist, Site Plan checklist and a copy of the Subdivision Regulations, which contain the Site Plan Review regulations. Although not required, it is recommended that you schedule an informational meeting with the Planning Board to discuss your project. As provided in Section VIII, paragraph 8.9C of the Subdivision Regulations, you may request a relaxation of standards or waiver from any of the Site Plan checklist items, particularly when they do not appear to apply to your project. If you are requesting a relaxation of standards or waiver, a letter to that effect must be submitted with your application. The letter should list all the Site Plan checklist items from which you are requesting a waiver or wish modified. It must also contain a brief explanation of the reason you are requesting a relaxation of standards or a waiver. Failure to make these requests in writing will result in automatic rejection of your application. It is recommended that you discuss any relaxation of standards with the Planning Board at the informational meeting.

The applicant and/or owner, agent, certifies that this application is true and complete and that any additional costs for engineering or professional services incurred by the Bristol Planning Board or the Town of Bristol, New Hampshire in the Site Plan Review process of this property shall be borne solely by the subdivider and/or owner.

November 6th, 2008

Fran Parkhurst
90 Lake Street
Bristol, NH 03222

RE: Proposed Two (2) Number 2 Fuel Oil Dispensers

Dear Fran,

Further investigation into your proposal revealed that you are permitted to appear before the Planning Board under "Preliminary Application" and request a waiver for a new site plan as the request is for an installation less than 400 square feet in size.

The Site Plan Regulations, under Article VIII, C states:
During the Pre-application Consultation (see Section 8.6), the Planning Board may waive part or all of the requirements for Site Plan Review for enlargement or new construction with an area of four hundred (400) square feet or less, or for new paving or an increase in the total paved area of one thousand (1000) square feet or less, upon receipt of a written request by the applicant.

Section 8.6 states:

PREAPPLICATION CONSULTATION (Site Plan)

A. The Bristol Planning Board may provide for pre-application or informational review of all Site Plans and Subdivision applications as provided in RSA 676:4.II subject to the following:

(1) Preliminary Conceptual Consultation Phase. Preliminary conceptual consultation shall be directed at review of the basic concept of the proposal and suggestions which might be of assistance in resolving problems with meeting requirements during final consideration. Such consultation shall not bind either the applicant or the board and statements made by Planning Board members shall not be the basis for disqualifying said members or invalidating any action taken. Furthermore, applicants are advised that they should not make any substantial financial commitments based on any statements made at any Preliminary Conceptual Consultation Phase hearing. The board and the applicant may discuss proposals in conceptual form only and in general terms such as desirability of types of development and proposals under the master plan. Such discussion may occur without the necessity of giving formal public notice (RSA 676:4 subparagraph I(d)). Any pre-application or informational discussion beyond what is deemed general and conceptual shall be considered as a Design Review Phase and said pre-application or informational preliminary discussion shall require public hearing and notification (RSA 676:4 subparagraph I(d)).

District 02
Town Bristol
Road/Route 3A
Date 1/25/94

TO: Ray Parkhurst

25 Lake St.

Bristol, NH. 03222

Service entrance allowed under
permit #4899.

Permission is hereby granted to construct a driveway, entrance, exit or approach adjoining Route/Road 3A, pursuant to the location and specifications as described below. Failure to adhere to the standards and engineering drawings previously approved shall render this instrument null and void. Failure to start or complete construction of said facility within one calendar year of the date of this permit shall require application for permit extension or renewal in accordance with the driveway access Rules. Facilities constructed in violation of the permit specifications or the Rules shall be corrected immediately upon notification by a Department representative or the costs of removal/correcting said facility shall be fully borne by the owner. The landowner shall indemnify and hold harmless the Department and its duly appointed agents and employees against any action for personnel injury and/or property damage sustained by reason of the exercise of this permit.

LOCATION:

Approx. 1670' south of Willow St., on the east side of Route 3A.
S.L. Sta. 5882

SPECIFICATIONS:

1. Intent of permit is to reconstruct existing residential drive to south to serve expansion of Parkhurst Plaza.
2. Close former main entrance and retain service entrance allowed under permit #4899.
3. Drainage to be directed away from Route 3A.
4. Existing sidewalk to be replaced in kind.
5. New pavement to match existing swale line at curb.
6. Plan on file at District 2 Office.

EXHIBIT A

In order to verify that the proposed construction will comply with the Zoning Ordinance, a plan showing property lines and the distance of all existing and proposed buildings and additions from the property lines is required. A north arrow along with dimensions of the lot should be included as well as any driveways and parking spaces. Label the street the lot has frontage on and any additional features that will help in identifying the property.

NOTE 1: If building is to be located in a flood hazard zone as defined on the Bristol Flood Maps and Ordinances, additional information is required and supplemental permits may be necessary.

NOTE 2: No building or structure, or part thereof, shall exceed 35 feet in height as measured from the high point thereof to the average natural or graded permanent ground level at the wall of the structure nearest to and below said high point.

The State of New Hampshire
Department of Transportation
DRIVEWAY PERMIT

Mr. Ray E. Parkhurst
Star Rte. 1 Box 1200
Bristol, NH. 03222

Permit No. 4899
District 02
Town Bristol
Road or Route No. #3A
Date 3/15/91

Permission to construct a driveway, entrance, exit, approach adjoining Route 3A or Lake St. hereby granted. Road pursuant to the location and specifications as described below, is submitted and failure to complete construction of said facility within one calendar year of the date of this permit shall render this instrument null and void. Facilities constructed in violation of these conditions shall be corrected immediately upon notification by a Department representative or the costs of removing said facility shall be fully borne by the owner.

LOCATION: **Opposite Bristol fire station on the east side of Rte. 3A.**

1. This permit requires that the area adjacent to the highway be graded such that the surface will slope from the edge of pavement to a line -- feet distant from and parallel to the pavement and -- inches below the edge of pavement (for the entire frontage of property) which line will serve as a drainage gutter. **Maintain existing swale.**
2. **Two** driveway entrance(s) ~~are~~ (are) permissible, each not to exceed 24 feet in width. The driveway entrance(s) may be flared as they approach the pavement.
3. Other access to the highway from the premises is to be prevented by construction of a barrier or barriers, such as a grass plot, low hedge, curbed island, etc. The front face of this barrier island shall be NA feet from the edge of pavement and the rear edge at the right-of-way line. No part of the right-of-way may be used for any purpose other than travel.
4. No structures, including buildings, permanent or portable signs, lights, displays, fences, walls, etc. shall be permitted on, over or under the highway right-of-way.
5. The highway right-of-way line is located NA feet from and parallel to the center-line of highway pavement.
6. No parking, catering or servicing shall be conducted within the highway right-of-way.
7. The applicant shall comply with all applicable ordinances and regulations of the municipality and other state agencies.
8. **Please see attached sheet.**

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

HARLES P. O'LEARY, JR.,
COMMISSIONER

Permit No. 4899
District 02
Town Bristol
Road or Route No. 3A
Date 3/15/91

9. Intent of permit is to access former Gerrity Lumber building which will be converted to 14,000 square feet of combination office and retail space.
10. First drive from the north will serve as a service entrance.
11. Second drive from the north is to be eliminated.
12. Third drive from the north will be widened to 22' to 24' to serve as the main entrance.
13. All existing drainage patterns will remain unchanged.
14. If possible trim ornamental bush on the south property line.

RE: Old and new addresses - Lake and Pleasant St. - 100752.006

From Ashley Bureau <sharedadmin@bristolnh.gov>

Date Fri 7/25/2025 12:21 PM

To Lori Cox <Lcox@nobis-group.com>

EXTERNAL

Good morning Lori!

Sorry for the delay, many files to sort through in order to try and track down this info 🙄
Please see below for the info I found, I noted it in red.

**For 2 Lake St: there's no longer a property associated with that lot, as it's the triangular median at the traffic light where Pleasant St meets Lake St. I found this information out from our Highway Superintendent who grew up in town – he said there used to be a gas pump at that location, where cars could basically use the island as a round-about, stopping to fill up gas there. This was years before the State DOT rebuild and redesigned that portion of the roadway when they rebuild the bridge there that crosses over the Newfound River.

Hope this helps, please reach out if you have any additional questions, and hope you have a great weekend!

Subject: Old and new addresses - Lake and Pleasant St. - 100752.006

You don't often get email from Lcox@nobis-group.com. [Learn why this is important](#)

Hi Ashley,

Thanks for taking my phone call earlier about the renumbering and for offering to research them. Here are the 7 addresses I had questions about:

90 Lake St. - This is the current address. What is the old address?

***Yes, 90 Lake St is the current address (Map/Lot #113-041) – currently is empty, most recently was Kathleen's Cottage & Pub, previously was Benmoore Paint & Parkhurst . Old address was 25 Lake St**

94 Lake St. - I think this is an old address that was the Bristol Citgo, and I think it's now the Bristol Village Market.

***Yes, 94 Lake St is the old address (M/L #113-026), I also found that in 1996 it was 28 Lake St – Park N' Go Market, and is also Citgo. Current address is 101 Lake St.**

50 Pleasant St - This is likely the current address, but was there an old 50 Pleasant St.?

***Yes, 50 Pleasant St is the current address (M/L #114-187) – John's Auto Service. Old address for this was 15 Pleasant St in 1995. I can't find record of a previous 50 Pleasant St.**

2 Lake St. - I think this is an old address. An Exxon Gas station occupied the property.

There is no long any property at this location and no such address. Please see map above for reference

25 Pleasant St - Not sure if this is current or old. A Cumberland Farms store is associated with this property.

***25 Pleasant St is the current address (M/L #114-178) – Cumberland Farms. The old address I found for that was 12 Pleasant St**

66 Lake St. - I think this is an old address. Fred's Auto Service was associated with this address.

***Current address is 215 Lake St** for Fred's Auto Service (now called Auto Trends) – M/L #112-001. I wasn't able to find record of their old address, so the 66 Lake St is more info than I had! 😊

32 Lake Street - I think this is an old address. Bristol House of Pizza was associated with it. Google tells me that the current location of Bristol House of Pizza is 115 Lake St.

*Yes, **115 Lake St is the current address** (M/L #113-027) – Bristol House of Pizza. I wasn't able to find record of their old address.
